## STEEL PLANT AT TIDEWATER

\$10,000,000 PLANT TO BE ERECTED ON GALVESTON HARBOR.

IS TO EMPLOY 7,500

WILL BE PROBABLY LARGEST INDUSTRY IN SOUTHWEST.

## PURCHASE TEXAS ORE DEPOSITS

Southwestern Steel Development Company of Houston are interested in Behind Plant.

Galveston, Oct. 21.—A \$10,000,000 plant at Tidewater, on Galveston harbor, at Texas City, employing 7,500 men and comprising a steel plant, rolling mills, smelters, coking plant and yards, is an assured fact. Work on the giant new industrial plant, greater perhaps than any other industry in the southwest, and comparable only to the stock yards interest at Fort Worth, is to start within sixty days, it was officially announced today by H. B. Moore of Texas City, vice president and general manager of the Texas City company.

Following on the story that the great industrial project on Galveston harbor was assured, came the formal statement giving all details of the transaction that means the greatest step the southwest has taken in industrial development.

The Southwestern Steel Development company, with headquarters in Houston, and the bondhouse of Peabody, Houghnaling & Co., of Chicago, are the interests that have developed the new plant, forming for this special purpose the Southwestern Steel Corporation, capital \$20,000,000. Of this corporation, \$10,000,000 has already been subscribed, it was announced. Iron ore deposits in Marion and Cass counties in East Texas have been purchased. Coal properties in Alabama, on the Tombigbee and Warrior rivers, have also been bought as an expenditure of nearly \$1,000,000. Limestone from Texas quarries in Coryell county has been secured.

The site of the new \$10,000,000 steel plant will be 200 acres of land south of what is known as the oil docks, said J. H. W. Steel, president of the Texas City Steamship company, who also emphasized the statement that the transaction while involving the transfer of a large portion of the town site property, does not take in the terminal property nor the docks at Texas City.

## BOILER EXPLOSION KILLS THREE

Station Island in Darkness on Account of Accident—Trolley Service Stopped.

New York, Oct. 21.—Three men were killed, four others injured, one probably fatally injured and virtually all of Staten Island was left in darkness and without trolley service tonight as the result of a double boiler explosion at the plant of the Richmond Light and Power company at Livingston, N. Y. The cause of the explosion is unknown.

## Find Suicide Note.

Dallas, Oct. 21.—O. M. Atterbury, employed by the county to sweep and sprinkle the viaduct, reported to the police Monday night that he had found a "suicide" note on the parapet of the Dallas-Oak Cliff bridge.

Mr. Atterbury told Officers Scott and McClure, who investigated, that he had seen a girl standing on the viaduct for several hours. Before leaving she left a note to the effect that she was "going to seek a watery grave."

O. L. Mitchell, keeper of the interlocking system near the viaduct, told the officers that he saw the girl also. He described her as being 15 years old, with dark hair and pretty.

The officers think the note is a bluff. The missive was unsigned.

## THOMAS E. WATSON CASE DISMISSED

Augusta, Ga., Oct. 21.—Holding illegal the indictment charging Thomas E. Watson, editor-author and former presidential candidate, with sending obscene matter through the mails, Federal Judge Rufus E. Foster today ordered the case dismissed. A packed court room greeted the reading of the verdict. Watson himself raised the point which moved the court to quash the indictment. Extended argument on the motion to dismiss had been made by S. G. McQuinn, Watson's principal attorney, when the defendant asked permission to present what he described as "other phases" of the matter.

This being granted, Watson addressed the court briefly, laying stress upon his claim that the indictment should not select certain passages of the article written by him, but should include the entire matter. He said that unless this were true, it would be possible to indict persons mailing copies of the Bible or the criminal code of Georgia.

Argument against the motion by United States District Attorney Alexander Akerman, was brief and limited to a defense of the government's position that the indictment need merely indicate the alleged obscene passages

## TELLS OF TRAPS FOR THE ADMIRAL

MRS. EATON ATTEMPTED TO TRAIL HUSBAND BY USING TALCUM POWDER.

## WOMAN SAYS WAS ATTACKED

Awoke to Find Him Injecting Medicine into Her Arm—Believed He Was Insane.

Plymouth, Mass., Oct. 21.—A reference to "a wealthy lover in Chicago" who wanted Mrs. Jennie May Eaton to leave her husband, was introduced today by the prosecution as showing a possible motive in the trial of Mrs. Eaton, charged with the murder of her husband, Rear Admiral Joseph G. Eaton, in Chicago.

The evidence was given in the testimony of Mrs. Marshall Bursey of Washington, D. C., who said that eight months before the admiral's death Mrs. Eaton told her of the Chicago man and his proposal.

According to Mrs. Bursey, Mrs. Eaton did not disclose to her the name of the alleged lover, but said that he owned much property and had promised to leave it all to her.

Mrs. Eaton told the witness that Admiral Eaton had attacked her several times at night and at one time she awoke to find him injecting medicine into her arm.

Mrs. Eaton also said, according to her husband's footprints, that she was going to have the admiral examined by an expert and if he was found to be insane, have him put away. During her stay in Washington, the witness said, Mrs. Eaton received much mail postmarked Chicago.

Mrs. Sarah R. Ducher, a clerk in the bureau of children and guardians in Washington, said that while calling the attention of the district court to the case of a child who was not receiving proper attention at an orphanage, Mrs. Eaton asked her to destroy all the records in the case, saying that her name was Owens and that she was the grandmother of the child.

How Mrs. Eaton tried to trail her husband's footsteps by scattering talcum powder on the attic stairs was described at the morning session by Frank S. Booth, a Rockland politician.

"Mrs. Eaton told me that her husband had tried to poison her," testified Booth. "She said she thought he had hidden poison in the nightgown she had searched for it, but could not find any. Then she told me she scattered talcum powder on the steps leading to the attic in the hope of tracing his footsteps."

When court adjourned for the night many of the women auditors left in automobiles, scores of which surrounded the building all day.

District Attorney Barker said the state probably will not call any more witnesses after more witnesses have been examined. The defense expects to occupy three or four days.

## SPILLED GRAVEL CAUSES WRECK

Corleona Interurban Jumps Track But No One Is Injured—Schedule Changed.

Dallas, Oct. 21.—Spilled gravel upon the track of the Corleona interurban this morning caused a northbound passenger car to jump the track, the accident occurring two miles south of Monroe. The car was moving slowly and no one was injured when the shock came.

The accident was one that caused a change of policy in the Southern Traction company's efforts to put service through on the new line. For the next few days, service over the Corleona line will be practically suspended, as the company fears that with all possible speed it will cause a wreck with real havoc in it.

A serious turn to the smash was averted by the care of the motorman. Two trains each way daily will be run. The Dallas to Corleona cars will start at 10:20 o'clock in the morning at 2:20 o'clock in the afternoon. The Corleona to Dallas at 4:05 o'clock in the morning and 2:05 in the afternoon. In the meanwhile the ballast trains will be pushed to the limit to finish the track work by Saturday night.

and not the entire article in which they appeared.

In announcing his decision, Judge Foster said it might "be that a paragraph here and there is sufficient to impress the whole publication with obscenity, but the defendant is entitled to be charged with sending the complete article. The publication is not a tract. It is not a part or extract of the Bible or the scriptures. We might take the Epistle of Potiphar, the wife, or the relations of Onan to his brother's widow or something of that sort and indict just as well."

Other feature of this indictment, the question whether it is obscene, is set out in a dead language, is not passed upon. On this view I will sustain the motion to quash.

"It is possible for the government to reinstate and make these entire articles part of the indictment. I think that is due to the defendant in this case."

What course the United States district attorney will pursue still is in doubt as he has refused so far to discuss the matter. Mr. Watson, before leaving Augusta for his home at Thomson, Ga., expressed himself as satisfied with the outcome of the trial.

## MOTHER AND CHILD AID MRS. EATON AT TRIAL

Miss Dorothy Ainsworth Eaton.

Mrs. Virginia Harrison, aged mother of Mrs. Jennie May Eaton, accused of the murder of her husband, Rear Admiral Joseph G. Eaton, retired, followed Dorothy Ainsworth Eaton, the Rear Admiral's stepdaughter, on the stand, at Plymouth, Mass. Both Mrs. Harrison and Dorothy Eaton testified that Rear Admiral Eaton had the liquor habit. Dorothy Eaton rehearsed the scene at the Eaton home at Assinippi and lifted the veil over family skeletons long hidden. She declared her mother gave her stepfather, the Rear Admiral, his medicine in what he ate and drank, and said she had seen a "pill" at the bottom of a teacup in the house.

## COLQUITT GIVES VIEWS OF CANAL

GOVERNOR RETURNS AFTER INTERESTING TRIP TO ISTHMUS.

## PRaises Sanitary Conditions

Does Not See a Mosquito and Few Flies—Is Great Achievement Commercially.

Austin, Oct. 21.—Oscar B. Colquitt, governor of Texas, arrived in Austin today after a trip to Panama and Cuba. He will remain in this city until the latter part of the week, when he is expected to go to Dallas to attend the fair.

Governor Colquitt was favorably impressed with the Panama canal and with the work that has been done. The locks cut and the Gatun dam are two of the greatest engineering feats imaginable, according to the governor. The locks were in operation at the time of the governor's visit and already one boat had been sent through them, but owing to low water in a nearby lake, which was to be used in floating the boats through the locks, largest crops in Panama and there is they were not in active operation.

Coffee and bananas are the two staple plantations in that section of 50,000 acres of bananae alone managed and owned by the United Fruit company. It is a pity to see a ripe banana in Panama, according to the governor, and there is no retail market for them in any quantity. They are all sent to the states while green.

Guests of State Officials.

While in Panama Governor Colquitt and his party were the guests of various state officials on the isthmus. A most noticeable feature, said the governor, was the absence of mosquitoes. During the entire trip through the isthmus only a very few flies were seen and not a single mosquito.

The governor tells a story of the habit of Colonel Goethals, who for eight years has been on the isthmus. It is said he has never called on a single official nor has taken dinner with any one. This he has refused to do because of the time that it would take to fill such social obligations once he started.

The governor visited almost the entire Panama isthmus. He stated that he had not felt the slight earthquake tremor that occurred during the stay on the canal. When asked whether he believed that the canal as a strategic and a commercial undertaking would be a success, he replied that there was no question of it, but the only thing derogatory that might be said against the canal would be concerning its earthquakes.

After leaving Panama the governor and his party visited Cuba, stopping in Havana for a week. He called on President Menocal of Cuba, who was a graduate of Cornell University. His entire cabinet is of native Americans. The party also called on General Arce, the mayor of Havana, and received very cordial treatment in both places.

Havana is absolutely the cleanest city that I ever saw," said the governor. "The only drawback is the system of currency which is very confusing. Three systems are used—Spanish silver, Spanish gold and American money."

## OLTORF'S NAME SUBMITTED.

Is Choice of R. L. Henry for Marlin Postmaster.

Marlin, Tex., Oct. 21.—J. G. Oltorf of this place has received a wire from Congressman Henry which informs him that his name has been submitted to the senate for approval by President Wilson for postmaster at Marlin. Oltorf was Henry's choice.

## Brandy Bails and Similar Candies Are Subject to a Tax

Washington, Oct. 21.—Such little loaded confections as rum balls, brandy balls and mint lozenges which are hollowed candies filled with spirits, hereafter will be subjected to special taxes, applying to retailers of liquor and to retail liquor dealers. Commissioner of Internal Revenue Osborne today announced his decision to impose the tax. The order will not apply to genuine confections simply flavored with liquors or wines.

## Find Germs in a Threatening Letter

Chicago, Oct. 21.—Chemists employed by the postal authorities discovered today colonies of germs in a letter sent to export money from Mrs. Frederick Steele, a wealthy suburban resident. The letter, warned Mrs. Steele that it contained 2,000,000 malignant bacilli with which she could be infected by opening it and demanding a sum of money in return for a supply of the only serum that could cure her.

Indications of the presence of a germ culture were found by the government chemists, who, however, were unable to state the nature of the disease they might convey.

## New Constitution for Congregational Churches Ready

Kansas City, Oct. 21.—The commission of nineteen named to prepare a new constitution for the National Council of Congregational churches is ready to report when the council convenes here tomorrow in triennial session. The new constitution contains, among other changes, a new doctrinal statement.

The commission has recommended the election of a national secretary of the council, to visit churches and societies throughout the country in an advisory capacity. Tonight it appeared that Rev. Hubert C. Herring of New York City, general secretary of the home missionary society, would be named for the position.

## He Is Committed to Prison; Is Refused Entrance; Poisoned

Little Rock, Ark., Oct. 21.—Buck Patterson of Johnson County, sentenced to five years in the Arkansas penitentiary for second degree murder, was found in a Little Rock hotel this morning in a critical condition. A physician declared that he is suffering from strychnine poisoning.

Patterson denies that he attempted suicide and believes that an attempt was made to poison him. An investigation has been started.

Patterson came to Little Rock unaccompanied by an officer. He was refused admission to the penitentiary yesterday because his commitment papers had not arrived.

## Two Roads Ordered to Erect a Union Station at Celeste

Austin, Oct. 21.—In the Twenty-sixth district court today Judge Wilcox held that the Gulf, Colorado and Santa Fe Railroad company and the Missouri, Kansas and Texas must erect a union depot at Celeste. The judgment was rendered in a suit filed by the state against the railroads. Notice of appeal was given.

A motion for a new trial in the case of the state against the Sugarland railroad and a request for immediate action was refused by the state attorney today. The only method of legal procedure remaining for the state is an appeal.

Russian Premier Ill.

Rome, Oct. 21.—The Russian premier, Alexander Nicolavitch Kokovoff, became suddenly ill here today of erysipelas. He is 68 years old. Physicians are hopeful for his recovery.

## Washington Forecast.

Washington, Oct. 21.—Forecast: Waco and vicinity—Cloudy; probably local rains Wednesday; Thursday, fair and cooler; moderate to brisk southerly winds.

West Texas—Fair Wednesday; cooler at night; Thursday, fair and cooler.

## Want Able Seamen Enough Carried to Man All Lifeboats

Washington, Oct. 21.—Rigid laws requiring "able seamen" in sufficient numbers to man all life boats were declared by Senator La Follette today to be necessary for the safety of passenger and crews of vessels on the ocean and the great lakes.

Urging the adoption of his own substitute for the Nelson "seaman's service" bill, which President Taft refused to approve and which is again before the senate, Senator La Follette said the Nelson bill failed to meet the situation, because it did not require enough experienced and trained men in the deck crews of vessels.

The substitute would require at least two able seamen for each life boat.

The senator also insisted safety at sea might often be determined in a crisis by the ability of the crew to understand its officers. His bill provides that 75 per cent of the crew shall understand the language of the officers.

By agreement the senate will vote on the seamen's bill Thursday.

## Judge Wilcox Finds the Terminal Tax Is Unconstitutional

Austin, Oct. 21.—The decision of Judge Wilcox in the Twenty-sixth district court finding in favor of the defendant in the case of the state versus the Houston Belt and Terminal company, found the act of a recent legislature levying a tax of 1 per cent on receipts, void and unconstitutional when directed against terminal companies and such other industries classified under section 16 of that act.

This section includes switching, draying and such other work as commonly done by terminal companies.

The law was found unconstitutional on the grounds that it levied directly a tax on interstate commerce and was in contravention to the federal statute. The state accepted the decision and gave notice of an appeal.

## Broker Wants to Know Whether Is Married or Single

New York, Oct. 21.—James Cunningham Bishop, Wall street broker and banker, asked the supreme court today to tell him if he is married or divorced.

Mrs. Bishop won her divorce suit last May and was given an interlocutory decree that he make final on her application at the expiration of ninety days.

The ninety days are up and so are the thirty days thereafter during which she might have applied for a final decree, but no such application has been filed.

Mrs. Bishop now is abroad and decision on Mrs. Bishop's question was deferred till November 10 to enable the court to learn what she intends to do. In the meantime, Mr. Bishop's marital status will continue undefined.

## He Saw the Boy October 7.

"The last time I saw Harry Stone," Mr. Smith told a reporter yesterday, "was the morning of October 7. He came to my home to borrow a cotton sack, stating that the boys had hid his place. He was working for Lowrey Patterson on a farm adjoining my place."

That same evening Mrs. Patterson was inquiring about the boy, as he was missing. I helped look around for him, and we learned that he had left the cotton patch early in the morning, and had not returned. Men who were working with him said that he had informed them he was going to the river to get a drink of water. He left his sack lying on the ground. That's the last any one in that neighborhood saw of him."

Brother-in-Law Interested.

A. Maddox, employed as a switchman in the local Katy yards and brother-in-law of Harry Stone, when informed of the suspicion that the unidentified body was that of his brother-in-law, stated that he had not seen Stone for some weeks, and that the lad's father, N. J. Stone, was in Waco Tuesday morning inquiring about the boy. The elder Stone resides at Boqueville. Mr. Maddox had not seen the newspaper description of the body found, but when a reporter repeated to him a description of the lad, he said: "That is almost identical with Harry's description. We have not seen him in three weeks, and had no idea of his whereabouts."

## Father Will Return to Waco.

The elder Stone was notified by telephone last night and he will return to Waco this morning to view the body in order that he may do so it will be necessary to remove it from the grave in which it was placed on.

Continued on Page 2.

## SEVEN ENTOMBED MEN BROUGHT OUT ALIVE

## CORPSE MAY BE IDENTIFIED TODAY

N. J. STONE COMES TO VIEW BODY OF BOY TAKEN FROM RIVER.

## HIS SON MISSING 3 WEEKS

Description of Victim of the Brazos Mystery Told With That of Harry Stone, Who Vanished.

The body of the lad found in the Brazos river five miles south of Waco Sunday morning, may be that of Harry Stone, nineteen-year old boy who disappeared from near Aquila, on the Hill county side of the river, Tuesday, October 7.

Stone disappeared on the morning of that date after he had told companions with whom he was working in a cotton field that he was going to the river to get a drink of water. Neither relatives nor the man for whom he was working have seen nor hear of him since.

Body Answers Description.

Stone has not been seen by his father nor other relatives in three weeks.

The description of the body taken from the river tallies with a description of Stone furnished by his brother-in-law, A. Maddox, who resides at Aquila and Cleveland streets, this city, and also to a description of the lad given by men who saw him just before his mysterious disappearance. Neither relatives nor the man for whom he was working have seen nor hear of him since.

## WORK CONTINUED IN SPITE OF DESPAIR RESULTS IN SAVING LIVES.

## ONE MAN IS DROWNED

GEORGE LOPEZ ONLY MINER TO MEET DEATH AT ROCKDALE.

## STORY OF THE IMPRISONMENT

Josangel Mirales, 16-Year-Old-Boy, First to Be Rescued Tells of Hopes During Darkness.

Rockdale, Tex., Oct. 21.—After having given up all hope of recovering the eight miners entombed in the Vogel mine here last Thursday, but in spite of which persistent efforts have been made to reach the tunnel in which they were imprisoned, rescuers broke through the solid rock tonight at 8 o'clock and an hour later hoisted Josangel Mirales, a 16-year-old boy, to the surface, 75 feet above his prison of six days, alive.

Seven men were removed in good shape except for weakened condition. The eighth, George Lopez, is known to have drowned in another part of the mine. His body has not been recovered.

The men were immediately placed in warm blankets, restorative were administered, and according to physicians will be all right in 48 hours.

The women of Rockdale, when they knew the men were alive, had hot milk and other comforts ready in an improvised hospital tent. They spared no efforts and gave great assistance.

Fans Installed.

A fan was installed over every hole during the drilling. At noon it was seen the tunnel had been missed, as the shaft had reached the same depth as the drill hole. It was then necessary to drill laterally seven feet to connect, delaying the rescue nine hours.

Mirales gave a complete account of the imprisonment. The men never gave up hope, he says, and heard every hour we have heard and knew efforts were being made to reach them.

Lamps Go Out Saturday.

"Our lamps," the boy said, "lasted until Saturday. After that we groped in utter darkness. For the last 24 hours we have heard the exhaust of the shaft fan and had new efforts being made to reach them."

Just before the workmen broke through, N. M. Bullock, a local member of the state mining board, and mine foreman Sam Taylor, went down and took charge of the rescue work. They found a mule alive and braying near the imprisoned men.

When word was sent to the surface that the men were found alive a shout went up from the crowd of 400 people assembled at the mine.

The men were 300 feet from the shaft and had to be carried.

Immediately after they were brought to the surface Rev. M. L. Pardo, a Baptist missionary to the Mexican colony here, offered, prayer. Rev. Pardo, Mayor Meyer and Manager Vogel of the mine are exuberant. These three men have been constantly on watch since the disaster occurred, last Thursday at noon.

The past twenty-four hours have been alive with interest. At 3 o'clock this morning the state mining board power drill broke through into the line. Immediately there was a rush of foul air, so bad that it was thought the men must be dead, but work was never slackened.

The most pitiful part of the disaster and rescue came when the wife of George Lopez learned that her husband was not among those that lived.

Every effort is being made to reach the place Lopez is supposed to be drowned. No expense is being spared, in hopes that he is still alive.

The rescue work is being done by sixteen picked Mexicans and is strictly voluntary.

A feed of oats was sent down to the mule.

New El Paso Paper.

El Paso, Oct. 21.—The Morning Times, a local daily paper published here, will have a new morning and an afternoon edition. Several new features have been added to its scope.

## JESUS GONZALES TELLS HIS STORY

Cotulla, Tex., Oct. 21.—Jesus Gonzales, accused with three other alleged smugglers of killing Sheriff Candelario Ortiz of Dimmitt county, told his story to the court today. He said he was born in Pueblo, Mex., about twenty-two years ago; he came to Texas recently by means of correspondence, his name being secured by Rangel from the publication, Regeneration, published at Los Angeles. He said he came to Carrizo Springs alone and went out to the camp with companions.

Gonzales swore that after the capture of Buck and Ortiz he was in front of the body found, but when a reporter repeated to him a description of the lad, he said: "That is almost identical with Harry's description. We have not seen him in three weeks, and had no idea of his whereabouts."

**KILLING AT SEYMOUR**  
A. L. BOARD AND T. J. BRUCE DEAD—SHERIFF ELLIS FATALLY WOUNDED.

Grows Out of Affair of Long Standing. Occurs in Struggle of Bank.

Seymour, Tex., Oct. 21.—Former Sheriff A. L. Board was shot and instantly killed; T. J. Bruce, his slayer, killed, and Sheriff W. R. Ellis fatally wounded here this morning. Constable Ben Bickers of Stamford, who was with Sheriff Ellis, was the only one participating in the shooting who escaped.

The only explanation which can be found is that it grew out of the killing of Bruce's brother ten years ago by Board and a deputy sheriff in an attempt to arrest him on Wagon Creek. Bruce shot Board at the head of the stairway in the First National bank building. As Sheriff Ellis advanced upon him at the foot of the stairway he shot Ellis through the body. Ellis jumped behind a telephone pole and began shooting at Bruce. Bickers also opened fire and Bruce was dead when his body was reached. Board is 48 years old and Bruce 45. Both leave families. Bruce lived in Stephens county near Breckenridge, and is supposed to have come to Seymour on the morning train, arriving at 10:15.

At 10:30 he was met by Joe A. Wheat, at Board's office and Board arrived a moment later. Wheat says he heard Bruce address Board, asking, "Is your name Board?" That Board answered and the shooting followed. Board was shot six times, one shot going through the left side and the others through the body.

Bruce came down the steps that led to Board's office and asked for the sheriff. Ellis was standing at the corner with Constable Bickers and started toward Bruce. He was shot through the right side, the bullet coming out the back of his head. Ellis jumped back of a telephone pole on the corner and started firing. Bickers stepped into the street at the same time and started shooting and Bruce fell. He was found to have been hit three times. One bullet went through his heart and two through the lower part of his body.

About ten years ago when Board was sheriff, he and Deputy Sheriff Francis Sultemeyer in arresting Bruce and his brother, Arnold, Bruce killed the latter.

**SULZER DEPARTS FROM CAPITAL**

LEAVES QUIETLY AND UNATTENDED OUTSIDE OFFICIAL FAMILY.

**SAYS FIGHT IS JUST BEGUN**

Mrs. Sulzer Says Will Take Stump for Husband If It Is Necessary.

Albany, N. Y., Oct. 21.—Wm. Sulzer tonight departed from Albany in silence. Not a friend accompanied him to the railroad station. Not a cheer greeted him as, with his hat drawn over his eyes and his chin buried in his overcoat collar, he walked slowly down the platform and boarded his car, by coincidence the "Empire State."

"I have no regrets," were his last words. "If I had everything to do over again, I would do just as I have done. My fight has just begun."

Half a dozen of his advisers will follow him to New York tomorrow to aid him in starting his fight for the assembly.

Final plans for the campaign were drawn up tonight at the last meal the impeached governor ate in the executive mansion.

Among his guests was James C. Garrison, who, due to his criticism of some of the anti-Sulzer assemblymen, brought himself in contempt of the assembly and has spent the last month in the Albany county penitentiary. He was released today by Judge Cochran at Hudson into the custody of his counsel until next Friday. Garrison plans to participate in the Sulzer campaign if he is not remanded to prison.

"I'm going back to New York," Mrs. Sulzer said, smiling, "and I cannot say that I am sorry."

Asked about a rumor that she would speak from the same platform with her husband during the campaign, she said she had no such plans, but was willing to do it.

"If I am asked, you bet I will," she declared. "I could tell some things that would be interesting."

News that Sulzer was on the train spread quickly and a curious throng of passers-by crowded through the streets to see him. He appeared not to notice them. As silently as the crowd came it wended its way back into the station and Sulzer was on his way to New York to attempt at once to regain his lost prestige.

**What Will Be Outcome?**  
Sulzer's race for the legislature was foremost in the minds of politicians around the capitol today. It was generally agreed that he will make a great deal of trouble for the organization in New York. His fire will be directed especially against Aaron J. Levy, who is a candidate for municipal judge, and Alfred B. Smith, speaker of the assembly, who seeks to succeed himself.

Sulzer intends to invade their districts and attempt to square accounts with them for the active part they took in his impeachment. He will oppose the democratic organization candidates generally.

Even Sulzer's worst political foes practically conceded him victory in his own assembly district. They were inclined to regard the withdrawal of the republican candidate as a trick intended to damage the democratic party a great deal at the cost of a small concession. There were no doubts as to Sulzer in the hope that he will repay them amply by his attacks on Tammany hall in case he reaches the assembly.

**Speculate on Speakership.**  
The question which caused greatest speculation, however, was how many votes Sulzer would be able to swing for his speakership candidacy in case of his election. The consensus of opinion was that the next assembly probably will be divided among the three parties and if this prediction is true, an Sulzer is able to muster the undivided support of one faction and a few insurgents from other quarters, he would prove a big factor in the race. A majority of the assembly is required to elect a speaker and only a landslide for one party can prevent a long deadlock. If Sulzer wins, Sulzer himself does not admit that he has deserted the democratic party by accepting the progressive nomination and the republican endorsement.

"I am a non-partisan candidate," he declared today, "and I am fighting for a principle instead of a party."

The impeached governor confided to friends last night that the opposition of Theodore Douglas Robinson to his candidacy didn't surprise him, but he thought that if Colonel Roosevelt were in this country, he would have his support.

Speculation was rife here today as to just what Tammany would do in the fight. It is known that all of the unaided evidence in the impeachment trial is in the hands of the Tammany leaders and rumor has it that this material will soon appear in pamphlet form for general distribution.

Sulzer planned to leave here for New York late this afternoon. He will live in a hotel there until he can obtain a suitable house.

**Judge Wellborn Admits Evidence.**  
Los Angeles, Oct. 21.—No matter how the government obtains the evidence it is admissible, according to a ruling today by Judge Olin Wellborn in the United States District court in the case of Dr. John Grant Lyman, promoter of the defunct Panama Development company, on a charge of having used the mails to defraud.

Lyman sought to prevent the introduction of papers seized by government agents in a raid on his office. Judge Wellborn held it was not the province of the court to inquire how such evidence was obtained.

Maps of the alleged Panama holdings of the company were introduced, showing, according to the prosecution, that the concern pretended to possess land that it could not possibly have acquired.

**Duel Is Abandoned.**  
Paris, Oct. 21.—A proposed duel between General Georges Florentine and General Rose, the two septuagenarians, retired French officers, was abandoned today after Florentine stated that there was nothing personal in the attack which Rose took offense. General Rose thereupon withdrew his challenge.

Vinegar is an excellent cleanser for nickel and silver and for brass if a little salt be added to it.

**HOW TO BE 100, SAYS SCIENTIST**

Rid World of One Thing and Every Other Man May Become a Centenarian.

"How to Prolong Human Life" is the subject of a recent article from the pen of a noted writer. He asserts that if the world could be freed of one thing the average length of human life would be increased to the century mark. That one thing is stomach trouble. It and its train of offshoots—liver, kidney and blood disorders—are causing the death of one person a second.

There is one way to rid the world of stomach troubles. There may be others. But this one is sure and in harmony with nature. It is by the use of Vitalitas. Vitalitas is taken out of the earth. It is an energized chemical-mineral substance found at but one place in the world. It abounds in natural forces and the best medicinal properties known to science. Vitalitas is extracted in condensed liquid form and is as pure as the waters of a mountain spring.

Nothing is added to it and it is free of any harmful ingredient. It forces from the system all stomach disorders and all ailments of liver, kidneys, bowels and blood. An invalid or delicate child may take Vitalitas. It puts new vitality into every weakened organ and function; cleanses the system and banishes all toxic poisons.

At Powers-Kelly Drug Co. For sale by all druggists.

**DIVORCE QUESTION AGAIN COMES UP**

EPISCOPAL HOUSE OF DEPUTIES TO CO-OPERATE WITH SPECIAL COMMITTEE.

**IS "TO AWAKEN CONSCIENCES"**

Subject to Be Taken Up at International Committee at Panama Exposition.

New York, Oct. 21.—The divorce question came up in the general convention of the Protestant Episcopal church today, the house of deputies by resolution deciding to co-operate with the "international committee on marriage and divorce." The congress is to be held in May, 1916, at the Panama exposition in San Francisco, for the purpose, in the language of the resolution, "to awaken the conscience of the American people toward the great evil of divorce and remarriage." The resolution was adopted without opposition.

Before the open meeting today the deputies in executive session concurred in the selection of the five missionary bishops chosen by the house of deputies yesterday. The new prelates are Bishops Hugh Burdison of North Dakota, and Capers of Spokane; Miles H. Gates of Cuba, F. C. Howden of New Mexico and Charles Blaney Colman of Porto Rico.

A resolution introduced several days ago by Rev. Dr. Freeman, deputy from Minnesota, intended to further religious training in the public schools was adopted by the house of deputies.

The resolution instructs the general board of religious education "to effect, if possible, through co-operation with other religious bodies, a system of instruction commensurate with the needs of our youth," together with forms and exercises calculated to promote patriotic and the "highest sense of personal integrity and purity of life." The general board is instructed to take prompt action to promote the daily reading of a portion of holy scriptures in all public places.

Both this resolution and that on marriage and divorce must be concurred in by the house of bishops before becoming effective.

It was announced that the house of deputies had received a letter from Rev. Dr. Pereira Mendes, president of the Union of Orthodox Jewish congregations, expressing that body's deep appreciation of the charges of "ritualistic murder" against Jews in Russia. Dr. Mendes' letter also said:

"The change in the collect is also keenly appreciated."

The reference to the collect meant the change for the Good Friday service in the Protestant Episcopal church and was a timely allusion, for this proposal came up in the house of deputies at this afternoon's session. The committee on the prayer book reported favorably on the proposal that the phrase "all Jews, Turks and heretics and infidels" be made to read "all those who know 'Thee not through the Gospel of Thy Son'."

The house of deputies voted favorably on this change as recommended by its committee.

It was announced tonight that the house of bishops had voted adversely on the proposal to give a vote in the house of bishops to the suffragan bishops. This proposal was brought up in the house of deputies at the Cincinnati convention in 1910 and defeated. The only other action announced was the defeat of the proposed amendment to the constitution handed down from the last convention making it necessary for the standing

committees of all the dioceses to consent to the election of a suffragan bishop.

**Waterworks for Floydada.**  
Floydada, Tex., Oct. 21.—The recent \$25,000 waterworks bond election conducted in this city resulted in a victory, and as soon as the bonds are sold work will begin on installing the new system.

**Wedding at Temple.**  
Temple, Oct. 21.—Charles J. Reifel of Austin and Miss Rose Reimschuessel of this city were united in marriage at St. Mary's Catholic church by Rev. Father P. A. Heckman, and following the ceremony departed for Austin, where they will reside.

**NOSTRILS AND HEAD STOPPED UP FROM COLD? TRY MY CATARRH BALM**

Instantly Clears Air Passages; You Breathe Freely; Dull Headache Goes; Nasty Catarrhal Discharge Stops.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.

**How the Hoosier Cabinet Saved Miles of Steps**  
THIS kitchen before being remodeled caused miles of steps every day. It is 16 feet long and 12 feet wide. The table was taken out, the space changed slightly and a Hoosier Cabinet added. Now the Hoosier is the center of everything with a splendid light. The old pantry is the refrigerator room with outside icing.

To prepare a meal this housekeeper takes food from the ice-chest to the cabinet, where she works without a step; then to the stove and dining room. Returning, soiled dishes go to the sink then to their shelves. She has her work done in hours less time than before she had her Hoosier.

**Last Call for the Hoosier Club!**

Every Cabinet Will Be Taken By Tomorrow Night

You are letting a remarkable opportunity to save money and health slip through your fingers by not investigating the club plan tomorrow, for this year not another Hoosier Club can be organized.

So many women have grasped this great opportunity to secure a Hoosier on the wonderfully generous conditions of the club plan that it isn't likely there will be a single cabinet left of our limited club allotment by 4 o'clock tomorrow afternoon.

As you certainly are going to have a Hoosier sometime, doesn't it follow that you are wasting strength and time and throwing away chances for pleasure by letting this splendid opportunity slip by?

Why not make your kitchen work easy now, instead of putting in more months of drudgery?

**Makes Model Kitchen**

Whether your kitchen is rather old-fashioned, or your home is brand new, you need the Hoosier to save steps.

For it alone can save you the miles of steps that you must take preparing and clearing up after meals. It combines the function of your pantry and kitchen table in one spot. It puts scientific system in your kitchen work.

With everything you need in cooking within reach, instead of put away somewhere across the kitchen, your work becomes easy.

You save hours of time, miles of steps and long hours of weary standing.

**Only Complete Cabinet**

Every device that is practical for work saving in a kitchen, has been

**Only \$1.00**

**Puts the Hoosier in Your Home**

Come early tomorrow without fail. Join the Hoosier Club, and we will deliver your cabinet and set it up in your kitchen ready to use immediately. You merely deposit the small \$1.00 membership fee, and your cabinet comes without waiting.

This \$1.00 is part of the price—the low national cash price that is not increased notwithstanding the easy conditions accorded Hoosier Club Members. Balance is payable in weekly dues of \$1.00, so you never miss the money.

This club method of purchase makes your Hoosier seem like a gift. The entire generous plan is under direct supervision of the Hoosier Manufacturing Company.

If we had many times these cabinets to offer this last day, we know every one would be taken.

But we can now supply only these few more. This is going to be a lucky number for someone—you, if you get here early. Don't delay. Don't wait to make up your mind tomorrow.

Decide now to be a Hoosier member and enroll first thing tomorrow. Nothing can be more important to your health and happiness than this lifetime labor-saver. Grasp your final opportunity to get one tomorrow. Make up your mind now, and tomorrow be quick to enroll.

Club Terms Apply Only During This Sale After That, Our Regular Terms Will Prevail

**HOOSIER Kitchen Cabinet**

R. J. Dennis & Co.

**Exclusive Hoosier Features**

1. You can clean the metal floor bin without inconvenience of removing. No other bin has this feature. Easily filled, because the top is low. Holds 15 pounds more than any other. Best and fastest sifter.
  2. Can't break, can't leak, metal, dust-proof sugar bin.
  3. Pure aluminum table at no extra charge; costs manufacturers ten times as much as zinc. Enormous output keeps sale price less.
  4. You can open all doors freely, no matter what you pile on the table, because it slides out.
  5. Crumbs can't stick in the new metal self-closing bread and cake box.
  6. Flavoring extract bottles have special shelf.
  7. You can't lose the new swing lids on 10 quart glass spice, coffee, tea, salt and cereal jars.
  8. Sixteen inches extension over the base when you slide out the table. Plenty of knee room for sitting.
  9. Comes apart to clean; closes tightly when not used.
  10. Pick your choice of white or plain inside upper section. All-metal table, or oak side arms.
  11. Interior construction that is not equaled anywhere—will last a lifetime.
  12. And among the minor details—big cupboards; sliding shelf; drawers for linen, cutlery; pan racks; meat board; rolling pin rack; hooks; want list, and scores of practical conveniences.
- You can't begin to appreciate them all until you see them.

**CORPSE MAY BE IDENTIFIED**

Continued From Page 1.

The body which is believed now to be that of Stone was found floating face downward five miles south of Waco Sunday. The head and the greater part of the body were submerged in water, only the back showing.

**Discovered By Three Boys.**  
The discovery was made by three lads who came to the river bank while hunting. They notified the officers and the body was brought to Waco. From appearances it had been in the water for eight or ten days. The water was badly decomposed and because of that reason it was impossible to preserve the body and burial was had in the potter's field. The grave was marked and in the event identification is obtained, the undertakers can easily remove the body.

If the body is that of Stone it had floated more than one hundred miles, following the meanderings of the river, before it found a lodging place among driftwood underneath an overhanging oak tree. It was here that it was found. The place from which Stone disappeared is twenty miles north of Waco. But to follow in and out of the river, the distance would be easily a hundred miles.

**River Was Running High.**  
Stone disappeared just at a time when the river was at its highest. Continued rains had swollen the stream and set adrift limbs and trees. For this reason it would have been possible for the body to drift unobserved for that distance and pass through the center of Waco without detection, as it might have made its journey among other drifting things.

The peculiar thing about the matter is that the body of the boy taken from the river was entirely nude with the exception of an undershirt. This garment was pulled around the shoulders and had attached to it the suspender of a blue overall and a black shoe string. This was the only covering seen, there were no indications that the body had had other clothing.

**To View the Scene.**  
In an effort to determine positively before digging up the body, if it is that of Stone, a visit will be made today to the river bank where it was presumed Stone was left the cotton field. If it is him, those who know him best say he might have removed his clothing and placed them on the bank to go to the water's edge.

For a number of months Stone was a resident of Waco, living with his brother-in-law. For a time he operated a small confectionary and fruit stand at the alley between Washington and Austin streets on Fifth street. He was friendly and somewhat peculiar in manner and his sociability was the means by which he became acquainted with a number of people. Leaving that place he went to Aquilla and worked for Mr. Patterson up until his sudden disappearance.

**MEDICAL SOCIETY IN SESSION**

Doctors Discuss Technical Papers. Preparations are Made for the Annual Banquet.

The McLennan County Medical Society at a special meeting held last night in the Chamber of Commerce rooms completed arrangements for the annual banquet. The following committee was appointed to take charge of the banquet: Dr. G. B. Focuse, H. T. Aynsworth and Guy Witt. The date will be announced later.

Dr. S. C. Gaze read a technical paper on "Complications and Sequela of La Grippe," and Dr. M. D. Saunders delivered an address on "My Experience With Serum Therapy in Typhoid Fever."

The papers were discussed by Drs. Focuse, Halbert, Aynsworth, Crosswaite, Dudgeon and McCormick. The chairman for the evening was Dr. R. H. Eanes.

To prevent human burial alive a tight chamber to hold a body, from which the air can be exhausted, his theory being that signs of life, if any exist, will manifest themselves as the air pressure lessens.

**Children Cry FOR FLETCHER'S CASTORIA**

CIRCLE A GINGER ALE

## Delicatessen

Exactly like the policy of our store, our Delicatessen department "differs." Open from seven in the morning until seven p. m., we are busily engaged serving our many customers, all of which goes to show how our eatables are appreciated. This delicatessen service, all our own, is different—call.

## The Grocery So Different

Geo. G. Stubblefield

The Daily Hint from Paris.

Daytime dress for a girlish figure, with the new three tiered skirt. It is of old rose tulle striped with white and is trimmed with black satin.

### Marriage at Belton.

Belton, Tex., Oct. 21.—This morning at the residence of the bride's parent, W. F. Beamer, occurred the marriage of Miss Carrie Beamer of Belton to S. B. Mantooth of Hoffman, Okla., the ceremony being recited by Rev. E. L. Storey of the Presbyterian church. The bride is a Belton girl, born and bred and universally loved by everyone. The groom is a prosperous young merchant of his native town and formerly resided at Taylor. They will reside at Hoffman.

### Corpus Christi Building.

Corpus Christi, Tex., Oct. 21.—Building permits were issued in this city during September in the sum of \$123,597. This is an increase over the August permits of \$115,533.

### Increase Ice Plant.

Waxahachie, Tex., Oct. 21.—At a recent meeting of the directors of the Waxahachie Ice works it was decided to increase the capacity of the plant twofold. Work will start immediately on the project.

### Terrill Paves Streets.

Terrill, Tex., Oct. 21.—Plans are on foot in this city to have several of the prominent streets in the residence district paved at a cost of several thousand dollars.

### Irrigation at Barstow.

Barstow, Tex., Oct. 21.—A project is on foot to irrigate 40,000 acres of land near this city. A \$200,000 dam will be built to impound water.

## PREPARE FOR WINTER

Have your Winter Clothes cleaned and pressed before the cold days come. Do not take chances on any and every one cleaning and pressing them, as they may be ruined. Call McGUIRE, Old Phone 412, New Phone 2628, and you will get the best work.

## THE BEST-UV-ALL

During this cool weather the people are certainly enjoying our hot coffee, hot chocolate and hot bouillon. That is, we judge they are from the way they are patronizing our fountain.

It takes a long time to build up a reputation for having the best of everything, and if we haven't built that sort of a reputation, we arise to a point of order to ask the question, who has? Everything is absolutely sanitary, sweet and clean. Our ice cream is the best in the world.

## Current Events

In Woman's Sphere

BOTH PHONES 1928.

KATE FRIEND, Editor

### THE SOCIAL CALENDAR FOR THIS WEDNESDAY

The Domestic Science meets with Mrs. George McGhee, 901 North Seventh, 7:30 o'clock.

The Young Married Ladies' Euchre plays with Mrs. J. E. Allison, Columbus Heights, 7:30 o'clock.

The Mary West chapter has call meeting with Mrs. Edith Lessing, Ethel and Twenty-second, 7 o'clock.

The Merry Matrons meet with Mrs. F. M. Compton, West Austin, 7 o'clock.

Saint Paul's Guild meets at the parish building, 4 o'clock.

The Mothers' club of Sanger school meets in school building, 2 o'clock.

The Mothers of Columbus street school meet at school building, 2:15 o'clock.

Girls who will ride as Indians in woman's parade meet with Mrs. James R. Wright, 426 Sherman, 4 o'clock.

Daughters of the King will meet in Saint Paul's church, 7:30 o'clock.

### WEDDING ANNOUNCEMENT MADE IN TYLER ON MONDAY

It is now known that Miss Elizabeth Wolcott, who has so frequently visited Miss Pauline Foster here, is to be the bride of Mr. Walsh of Dallas.

The announcement came formally through a gathering of friends in the home of the bride's mother on Monday. This is the cause for Miss Pauline Foster's visit in Tyler, from which she is now due.

### MRS. JAMES R. WRIGHT MAKES IMPORTANT NOTICE

Among the many other picturesque features for the parade on Woman's day it is intended to have a division of Indian campfire girls. These will dress in Indian costume, and be attractively grouped somewhere within the children's section. Mrs. James Wright, 426 Sherman street, is chairman of this.

She requests all girls who are interested to meet in her home this afternoon, as announced in today's social calendar, or to telephone her, either phone 1756, today.

### COLUMBUS STREET MOTHERS ARE CALLED FOR TODAY

Mrs. R. B. Davis requests all mothers whose children are enrolled in the Columbus street school to attend a meeting at the school building this afternoon at a quarter after 3 o'clock.

The main object of this call is to discuss representation in the Mothers' club section of the mammoth woman's parade. Other ward schools are making effort for creditable representation, and no doubt the Columbus street mothers will decide to do their part towards having the most successful phase of woman's activity in this city made prominent.

### RECEPTION FOR MRS. FRENCH AT REBECCA SPARKS HOME

The City Mission board will be at home to friends in general during two hours of Thursday afternoon. This will be in the parlors of the Rebecca Sparks home on Franklin street.

The guests of honor will be Mrs. R. L. French, who is just arrived from Kansas City to become station matron for Waco. To receive the individual guests who call will be a house party composed of the City Mission board, executive board of the City Federation of women, who brings Mrs. French to Waco, and the president of each society who composes the City Mission Federation of Missionary societies. The public generally is invited to call and extend cordial welcome to Mrs. French personally, as well as to wish her success in her new field of forceful work. The hours are between 3 and 5 o'clock.

### THE SHAKSPERE CLUB

The first regular session of the Shakspeare Club came with Miss Kate Friend, the director, on Monday afternoon. Mrs. J. W. Downs presided and the minutes were kept by Mrs. J. J. Bohring. New members in the J. Bohring, H. A. Wedington and D. V. Wallace were welcomed. Several applications were received which gives as new members Mrs. W. W. Lastinger, Mrs. Fred Meyer, Mrs. J. C. Kelley, Mrs. Virginia Rose and Mrs. Whiteles. Owing to the distraction of Cotton Palace season and the fact that Mrs. S. E. Shelton is in Panama, Miss Decca Lamar West will sit in the east, also, with Mrs. W. E. Spill.

Actively engaged in Cotton Palace work, Mrs. M. E. Manton devoted all her time to the Henry Downs Chapter's arrangements for the woman's parade—all this decided the club not to take up the study of Julius Caesar until middle November. In the interim, Miss Friend will give talks on the famous pictures of the Old World gallery, using radioelectric illustrations. On Monday afternoon famous women were thrown upon the canvas. Beginning with the Venus de Milo as the Greek type of woman, the attention through the famous da Vinci faces, the love of Raphael in his Fornarina, and the Sistine Madonna, the tragic stories of Beatrice Cenci and Isabella d'Este, was made. The famous Princess Potoczek by unknown artist, was an example of environment versus heredity; also was Lady Hamilton of the date when the famous painter of England preserved British aristocracy on their canvases. By way of Rubens's Helen, Fourmont and Rembrandt's Saskia and his mother in Holland the club went into the career of the most famous woman painter, Madame Le Brun. Here her own portraits with comment, and those of her friend, Marie Antoinette, were used. It all went to interest the club members very much. Mrs. J. M. Hale, joint chairman, with Mrs. A. C. Patton for the Shakspeare club's participation in the woman's parade reported what had been done. The club will present outsiders in famous Shakspeare women, and follow with a float which portrays one of the beautiful scenes from Winter's Tale. The individual members will decorate private vehicles as the cortege of escort. Other applications are pending and the outlook is that another meeting will bring the limit of fifty bright, interested women.

### LIFE IN LOS ANGELES AS SEEN BY MRS. COLMAN

Seldom does a young woman have the power of such graphic portrayal and such intelligent digest of scenes as does Mrs. Ray Colman. In her letters to the friends whom she left for Europe, and now residence in far away California, Mrs. Colman always has something vivid, and something of a general interest; hence, the frequent mention of her letters by the News. The last came on Tuesday from Los Angeles, the recipient having passed it on to this writer.

Mrs. Colman speaks first of two flourishing chapters of Daughters of the Confederacy in Los Angeles, one of which she expects to join. This is rather remarkable that two southern circles should exist, so far in the west, and yet not strange either, when Mrs. Colman continues to say that she was present at the reception tendered Congressman Henry, and that there was special making cake, all in praise of Texas and Texans. Mrs. Colman remarks: "It appears Texas never loses the loyalty of her sons or daughters, no matter where they roam." This, then, with four thousand troops in the city, and Los Angeles, is sufficient to form two chapters of daughters.

The Texas club in Los Angeles has a monthly dance and card party. Every one is cordial and everybody has a good time.

Mrs. Colman has also attended a brilliant reception given by the Daughters of the American Revolution. And here comes an idea which will be Waco might utilize. A colonial play written by one of the local mothers was presented. Living pictures representing colonial scenes followed.

The Music Club held special sessions in observance of the Verdi centenary which has swept entire America.

The cry of the California club woman now is "Social Purity." The Texas club women have the same, but in not quite such a loud key.

Noting in the Morning News that Mrs. Colman writes: "When we were in Chicago reproductions of the famous Chabaz paintings were not allowed to be displayed. Pictures were taken by the window, the pictures of the club, we are not allowed to display a nude picture in our windows. Come inside and we will show it to you." What must the French think of such false modesty? Why make a joke and be wiser of the club and artistic painting? Since we came out to Los Angeles we have seen reproductions in all the windows, even the ten cent stores. We have come across the September Evening September Night and numerous other "Septembers" to say nothing of the songs heard in the cabarets.

### Society Notes.

Watch for the stunning tandem which will be in the woman's parade. Mrs. Frank Allen, who is now in Dallas, goes to the city to see her brother before returning home.

Mrs. Quin Gray is down from the east to visit her Texas relatives. At present she is in Austin, the home of her girlhood, and will visit Mrs. R. H. Gray and Mrs. Jessie Gray Smith before leaving for the thirty-third wedding anniversary. It is the pearl.

Through respect to Miss Mary Haywood Glover, one of the Bridge Juniors, Miss Marian Duncan, the pasted hostess, postponed her game until next Tuesday afternoon.

Friends who have been east report a movement of interest to old friends here. This is that Mr. and Mrs. W. T. Gould, after their several years' residence in New York City, are now in Dallas, Tex., and have resided in their new home several months and are surrounded with all which makes an attractive and a comfortable abiding place.

A recent furniture fashion article is headed, "The pasting of the den." This article goes to compare the once popular niche, where the man in the house could smoke and pass cigars to his friends, as a veritable "chamber of horrors." There is still a place for the huge lord, to be sure, in every home, but this is light airy and inviting, not close and stuffy.

If you are to have Cotton Palace guests, tell the Morning News about it. This will carry the gospel of exposition visits to the nearby towns, and perhaps induce many to come to see what all the others are on hand.

Be sure to get Cotton Palace post cards, those which are designed especially for Woman's day. And, what is more, be sure that these reach the mail box.

If there is a nation under the sun whose costume will not be repeated in the woman's parade, it is not yet located. Even the black mammy will have a chair of state.

It is now known that Miss Leta Roberts of Albany is to be a November bride. This marriage will take place in Albany on November 23. Miss Roberts has spent so much time in this city, and such large family connection here, that the event is noted with general interest.

The date for the annual Philo ball depends upon when the guests leave the decorator's hands. In the meantime, the Philo ball is the subject of pleasurable conversation.

Do not permit your child to use the telephone unless you teach him how it shall be done.

Do not hesitate to invite Cotton Palace guests upon the idea that you cannot entertain them properly. Remember, Cotton Palace days are Bohemian days, when everybody is rushed. That is part of the good time, that thorough unconventional. Some women will have to let the guest "go it alone" because they are otherwise engaged. It would not be Cotton Palace if everything was conducted with drawing room smoothness about answering our invitations. The general at home does not require this attention, but the card party certainly does. Is it not a sad commentary upon the status of our social life, when a hostess sends luncheon cards, even with the "Please respond" upon it, and then has to ring the one invited to know whether to provide a seat for her.

All over the country, there was observance of Verdi's centenary. Some-

### Try This Treatment For Hairy Growths

(Helps to Beauty.)  
A single application of a paste made by mixing together a little powdered delatone and water and applied to objectionable hairs for about 2 or 3 minutes, then rubbed off, takes with it every trace of hair or fuzz. The skin should then be washed to free it from the remaining paste and it will be firm and spotless. This is a quick, painless treatment, but its success depends greatly on using fresh delatone, which can be purchased only in original packages.

### TEXAS CROPS IN GOOD CONDITION.

Washington, Oct. 21.—The condition of all growing crops of Texas on October 1, 1913, was 95.1 per cent of the average condition of the previous ten years, according to a recent report of the Federal Crop Reporting board. On the same date last year the condition was 95.1 per cent. The general average for the United States was 95.3 and 95.9 per cent on October 1, this and last year respectively.

### Must Keep Dogs Up.

Marlin, Oct. 21.—Mayor Heffner has issued a proclamation for all citizens owning dogs to keep them confined to their premises until all danger of hydropneumonia has passed. This action follows the report from Little Rock that a dog that bit the two little girls here last week was mad.

## HEAD AND NOSTRILS STUFFED FROM COLD

"PAPE'S COLD COMPOUND" ENDS A COLD OR GRIPPE IN A FEW HOURS.

Your cold will break and all grippes misery end after taking a dose of "Pape's Cold Compound" every two hours until three are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as Pape's Cold Compound, which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

how, we have forgot about this significant event in the musical world.

Now that we know Robin Hood is to be here why not read something from the library of this romantic character? Supplement this with something De Koven, how he composed, and why he wrote, this subject? Enjoy everything, but enjoy intelligently.

Cards from Mr. Talley received on Tuesday report Mrs. William Talley seriously recovering from a very, very serious operation. She is in Saint Andrew's hospital, Lynchburg, with no time anticipated for her dismissal. However, the hope is for her ultimate recovery.

**Society Personals.**  
Miss Mae Wynne of Huntsville is the guest of Mrs. Edgar Witt on North Twelfth.

Mrs. O. K. Stetler of Bosque boulevard was a recent visitor to the Tyler fair.

Miss Minnie Kilgough of Austin avenue is returned from her extended trip through the east.

Among the Tuesday arrivals at home was that of Mrs. Edward Rotan from the east.

Mrs. Robert Flavelyn, Provost Heights, is entertaining her nephew, Ike McFarland, from Tampico, Mex.

Mrs. J. T. Davis of Terrell, Mex., is the guest of her aunt, Mrs. William Meade, Terrace Row.

Mr. and Mrs. J. Clark Jones are due today from their wedding journey through the north.

Mrs. Taibot of San Marcos, who visited Mrs. J. R. Milam, Twelfth and Jefferson, last week is due on a return trip.

Mrs. Foster Fort's recent guest, Mrs. Whitmore, of Asheville, N. C., is now with her sister, Mrs. William Williams, in Hillsboro.

Mrs. H. W. Smith of North Seventeenth is entertaining her sister, Mrs. White, and Miss Lucille White, from Galveston.

Mrs. John B. McNamara of Herring avenue has returned from her visit to her sister, Mrs. R. B. Dickey, in Dallas.

Mrs. R. L. French, who comes as station matron for Waco, is a guest of Miss Jackson at Rebecca Sparks home until a more permanent location is secured.

The Misses Sara and Rose Cohen of West Washington are visiting relatives in Dallas.

Mrs. W. E. Cresap of North Fifth street, joint Mrs. Earle Mason, of Provost Heights on a trip to Dallas today.

### Friends of Indians Are in Conference

Mehonk Lake, N. Y., Oct. 21.—Men who have devoted the best years of their lives to service among the Indians and the native Alaskan are gathered here to attend the thirty-first conference of the Friends of Indians and Other Dependent Peoples.

The conference will open tomorrow and continue three days. Indian affairs will be the topic the first day. The Philippines will be discussed on Thursday and Friday will be devoted to Alaska.

It was expected tonight that the demagogues in the Philippines would be the subject of debate for some of the members asserted they were opposed to giving the native any more authority at present.

Those who will read papers include several Filipinos from the federal Indian service, judges who have served in the Philippines or Porto Rico and clergymen, some of them bishops who have been in charge of missionary work in those districts.

Major General Leonard Wood, chief of staff of the army, is expected to take part in the discussion of Philippine topics Thursday. The conference will adopt a platform containing recommendations to congress or the various federal departments in charge of work among the American dependencies.

### Says Prevailing Rates Reasonable.

Kansas City, Oct. 21.—Prevailing tariffs on freights of bananas from various ports to Toronto, Kansas, Hutchinson and Wichita, Kansas, are reasonable and should be continued, according to representatives of the Illinois Central and New Orleans and Northwestern railroads, who testified before C. R. Marshall, special examiner of the interstate commerce commission at the banana rate hearing here today.

H. B. Sargent, superintendent of transportation of the New Orleans and Northwestern railroad, and Joseph Hattendorf, general freight agent of the Illinois Central, testified that unusual expense incident to handling this class of traffic and a constantly increasing cost of practically all of the factors entering into the transportation of freight made the maintenance of the present rate necessary.

### Sen-in-Law of General Miles in Charge of New Department.

Washington, Oct. 21.—Col. Samuel Reber, who has been chief signal officer of the eastern department of the army, today assumed the duties of chief of the new bureau of aviation in the war department.

Heretofore the direction of all matters connected with aviation and aeronautics had been in the hands of the chief of the signal service, General Scriven, but because of the growing importance of aviation as a military adjunct, Secretary Garrison and General Scriven decided to assign an officer of the rank of colonel to duty in charge of that branch of the service.

### W. M. Woodall Leaves Temple.

Temple, Oct. 21.—At a session of the board of directors of the Chamber of Commerce held last night, the resignation of W. M. Woodall as secretary of the organization, was presented and accepted.

## BABY SHOW POPULAR

MANY NEW ENTRIES ARE COMING IN EVERY DAY.

List of Prizes Proves Attractive. "Shadow of the Cross" Will Please All With Eye for Art.

Entries are coming in rapidly for the Cotton Palace baby show. The full list of prizes published in the official catalogue and premium list, which may be obtained by addressing Secretary Seth N. Mayfield of the Cotton Palace association, has proved attractive beyond expectation.

Citizens who will enter their tots in the show have the opportunity of viewing the vast array of premiums in Sanger Brothers' show windows. Cash awards will also be made in the various divisions.

The baby show will be held on Monday, November 3, at 4 o'clock in the afternoon, and as excursions from Corpus Christi and Bishop will be here on that date, the South Texas visitors will be afforded quite a unique entertainment.

"The Shadow of the Cross," the picture by Henry Hammond Ahl, the picture of the Christ appearing to the living and the dead, is a masterpiece of art. It is a masterpiece of art. It is a masterpiece of art. It is a masterpiece of art.

Entering the gallery the patrons see a picture of the Christ, a remarkably strong face and everything to suggest the Christ man. When the lights are turned off, the painting is seen distinctly, the Christ appearing to the living and the dead, is a masterpiece of art. It is a masterpiece of art. It is a masterpiece of art.

Every patron of the Cotton Palace should view this picture during its stay, for it is probably the last opportunity to see the great "inspired" painting. It must be seen again and again to be fully appreciated.

There is something about it that surpasses human understanding. It is a marvelous creation, whether the result of inspiration, accident or unusual art.

### Live Advertising.

The publicity department of the Texas Cotton Palace has some hundreds of thousands of pieces of advertising matter which are being sent broadcast over the state. Hundreds of packages have been wrapped up in the hands, with strings in the hands, and programs, making it very convenient for autoists and people traveling out of Waco on the trains to take a bundle or two to be placed in the various towns of Texas that will be visited before the Cotton Palace opens.

When the supply runs out, every matter will be printed, and every auto owner who goes from beyond the confines of the county, and all who go on the trains should bear in mind that they can do a great service for Waco by stopping around and getting some literature.

### Cotton Modeling.

It is earnestly desired that all those who are preparing entries for the cotton modeling department of the Cotton Palace should communicate with Mrs. J. R. Cooper, who has charge of this department, in order that proper information may be had for allotting space for each exhibit, as it is necessary to know in advance just what space will be required, so that the most advantageous setting can be provided. Mrs. Cooper may be reached over either phone and will be glad to hear promptly from all who are preparing exhibits.

### Decorations of Buildings.

It is in order for the owners and occupants of buildings to begin planning for the most magnificent work ever viewed in any city, so that all the countless visitors will see Waco in gala attire. The city is going to decorate the city hall, and strings of brilliant lights have been strung all the way to the Cotton Palace from the square, making a perfect white way the entire distance.

### REBER HEADS AVIATION.

Sen-in-Law of General Miles in Charge of New Department.

Washington, Oct. 21.—Col. Samuel Reber, who has been chief signal officer of the eastern department of the army, today assumed the duties of chief of the new bureau of aviation in the war department.

Heretofore the direction of all matters connected with aviation and aeronautics had been in the hands of the chief of the signal service, General Scriven, but because of the growing importance of aviation as a military adjunct, Secretary Garrison and General Scriven decided to assign an officer of the rank of colonel to duty in charge of that branch of the service.

## TO BE WELL CORSETED

does not mean that you must wear an expensive corset.

It means simply this:—Your corset must give you graceful lines with perfect comfort.

It's the figure-moulding quality of G-D Justrites that gives you comfort and graceful lines.

It's GOOD FORM TO WEAR

G-D Justrite CORSETS

The figure-moulding quality comes from the clever designing and from the materials of which they are made.

G-D Justrites at various prices—according to the fineness of material.

Style 3908—This is a low bust model with the back sufficiently high to prevent the flesh from falling over the corset. The full length skirt encases the lower portion of the figure, giving straight hip and back lines. This model is adaptable to a wide range of figures as it is not extreme in any line of fashion. Three pair supporters. Made of fancy ratine, sizes 18 to 30. Price..... \$3.00

Style 90—Athletic Garment—something entirely new. Most desirable for misce wear and those desiring an athletic garment. The knitted fabric allows perfect freedom of movement and full deep breathing, while the skirt of entirely different material gives support just as does the athlete's belt. Suitable for wear at all times. Two pair supporters, sizes 18 to 26. Price..... \$2.00

Style 2700—The stout figure needs symmetry of line (not slenderness) and to accomplish this the corset must be most carefully proportioned. Our new model here shown gives to the figure ideal lines. The lower portion of the corset fits snug, giving straight back lines and proportionate hip lines. Six supporters. Made of strong coutil, sizes 20 to 36. Price..... \$5.00

Other Justrite Models from \$1

Notice to Subscribers.  
Delivery routes in the city of Waco are in the hands of Independent Carriers, who buy their papers at wholesale prices. Subscription accounts are due them, not the Waco Morning News. They are under heavy bond, not only to give the best delivery service, but to pay for their papers each month. Their remuneration is the difference between the wholesale price and the retail price which they receive from subscribers. This margin of profit is such that they can not afford to extend credit except on a cash basis. They are not required, and are advised against, delivering the paper to anyone who does not pay in accordance with the above subscription terms. These carriers are all earnest, hardworking young men and they will appreciate any courtesy shown them.

The Morning News should be delivered throughout the City of Waco by 6:30 a. m. and subscribers failing to receive the paper at this time will confer a favor by phoning the circulation department, both phones 1182, and a copy will be sent by special messenger.

Traveling Agents.  
Following are the traveling agents of the News who are authorized to solicit and receipt for subscriptions, advertising, etc.: W. W. Lewis, F. E. Long.

"LIVE WIRES" ARE OFTEN DANGEROUS.

It is a far, far descent for the Progressive party in New York—and even nationally—from the nomination of the Hon. Oscar Strauss to the governorship and the clean, convincing campaign he made to the nomination of Sulzer by the sixth assembly district convention for that party, to return Sulzer to Albany as a member of the lower house that he may begin a new attempt to be elected governor. Sulzer has announced this last to be his purpose. He says he can do more "for the people" outside the executive office—yet he seeks the office.

Not losing sight of the fact that the raming of Sulzer, Monday, to further political standing before the people of the Empire State was the result of a nonpartisan—or nonparty—petition by half the electorate of the sixth district, we think that the most significant fact that the Bull Moose company in New York may plead against this unwise move was that it violated the advice and wishes of the leaders of the party most concerned—the State and county chairmen. There has ever been much, though not quite enough, popular hatred and distrust of Tammany, and a deal of this feeling has become sympathy for Sulzer, a sympathy that regards Tammany almost wholly and the personal culpability of Sulzer very little. The voters of the sixth district seem to be among those most misguided by that too impulsive and little thoughtful sympathy. For we cannot adjudge, after noting carefully the comment in the press of all parties and political lams in that State and its metropolis, that Sulzer has the sympathy of the general public to an extent that means its approval of his return to public office.

It may be that the voters of the sixth district are mistakenly, because unwarrantably, applying the national leader—Col. Roosevelt—advice that the party needs young men, virile men, "live wires" and patriots in its campaigns and for the offices involved therein; or, rather, that the convention mistakenly considered the action in the sixth district an opportunity to apply that advice. Sulzer is active, virile; despite the circumstances of his trial he claims to be a patriot, the people's champion. But we think, and we think those who urge him forward again will find, that the estimate of the energy and force of this sputtering live wire runs dangerously and in the wrong direction. And let it be remembered that the Bull Moose press of that State pointed emphatically to the case of Sulzer as an instance of the sort of political condition of which they claimed in the last campaign to be trying to rid New York.

Putty.  
Hobson is not likely to sink anything in the way of Underwood.—Norfolk Ledger-Dispatch.  
Nor to erect anything. In fine, Mr. Underwood may proceed to present his claim only with a pebble for his opponent and save his big guns for the foes of that high sort of government to which he is ideated.

Troop train wrecks that dispose of our enlisted men are not pictured in the recruiting office posters or mentioned in the calls to patriotic sacrifice in time of peace.

Austin trouble, collision and embankment trouble and now wire trouble. The M., K. & T. is getting its with a vengeance.

UTILIZING THE CANAL.

By long odds the most important phase of the recent convention of the Interstate Inland Waterways league at Orange was the step in the direction of arousing the interest of the communities along the canal to the importance of making provision for using the canal. All the magnificent work required and devoted to securing the canal will go for naught unless the waterway is provided with the facilities for handling commerce and unless these facilities are protected against monopolistic control or control which will tend to place a burdensome tax upon commerce which moves through the canal.

The secretary of the league has been directed to obtain data calculated to impress upon the people the urgent need and great necessity for beginning now to provide the harbor facilities. The statistics are considered necessary as the basis for the campaign, but the big purpose and real motive back of the convention's action is to awaken the people to the realization that this waterway is ready for use; to educate them to use it by bringing to their attention the benefits which can be obtained from its use and to impress upon them the importance of building docks and wharves and the still greater importance of putting the wharf facilities out of reach of interests which are not in sympathy with the public welfare.

It was only a few years ago that the intercanal canal project was practically unknown to the masses of the people. The convention at Orange last week disclosed that it is now fairly well known and understood by everybody, but the full significance of the canal and a proper appreciation of its value as a factor in the development of the coastal country can come only from the most thorough distribution of information and facts regarding the waterway.

"Attention should be given at once to acquiring suitable frontage on the canal and placing the ownership in safe hands," says the Beaumont Enterprise. "It may be several years before the actual need of the water front will become apparent, but it can be secured cheaper now than at any time in the future and the most advantageous sites can now be purchased, whereas a few years hence it may be impossible to secure the desirable sites."

"If there is anything to fear from adverse control of the canal by the railroads or large steamship concerns that fear can find lodgment only in the control of the wharf facilities. No corporation, no matter how powerful or how sinister, can control the actual use of the water in the canal for navigation purposes and though there be a steamship organization as powerful as the government itself there will be nothing to prevent the building of cheap barges and their operation on the canal water. But there is something to fear and a great danger lurks in delay in securing wharf sites on the canal and placing the ownership of these sites in the people's interest. In the beginning it will also be necessary to provide facilities somewhat in advance of their need and commercial interests can not be expected to provide facilities which require an investment with no immediate returns. The element of unselfishness must, therefore, take the place of commercial factors which might otherwise be expected to take care of the situation. The commerce must be developed gradually and it will not offer remuneration at first, but by getting commerce started over the canal is the surest and quickest way to make people realize its benefits and a realization of the benefits by the people generally is all that is needed to insure the maximum of good from the great waterway.

Abnormal Influences of Africa.  
Stewart Edward White has made two journeys to Africa and possesses very numerous trophies from these expeditions. For these reasons "American Camp Fire" is of especial interest.—Boston Traveler-Herald.

By the same token these African expedition trophies should give Mr. White to write interestingly on Buddhism and the Occult.

FOR THE UNEMPLOYED.

The United States consul general at London advises that the British scheme of National Insurance against unemployment has proved to be administratively practicable, and so far, having been tried out in a time of trade prosperity, has been successful.

The first year's gross income (three-quarters from employers and workmen and one-quarter from the State) amounted to \$11,029,164, and at the end of the 12 months there was an invested balance of \$7,835,065.

The payment of benefits, however, did not begin until half the year had elapsed. The claims numbered 559,021 and the claimants received in the aggregate \$1,150,722.

In a large proportion of cases the consul general reports the unemployment was very short, 30 percent falling within the waiting week during which

no claim could be made, 62 percent received benefits, while 7 percent were excluded for various reasons, and 1 percent represented unemployment which continued after the period during which benefits are awarded.

"Nobody knows what will be the ultimate economic and social effect of this insurance plan," the Boston Globe comments on this report. "It may be wrecked in times of stress, but one familiar with its workings says optimistically that there is a prospect that the insured trades will enter upon their next period of depression with an accumulated reserve of some millions of pounds sterling, laid up during the present period of prosperity, and with an organization, already in being, capable of applying that reserve to meet the needs of each of the trades in every part of the United Kingdom."

Help!—and Then Help!  
I've been out west fourteen times. Sometimes I think that's where I belong.—Sulzer.

Ancient and picturesque Dedham, Mass., has its poly-titled Society for the Detection, Pursuit, Apprehension, Conviction and Imprisoning of Horse Thieves—or words to that effect. But Dedham is in our far east and even if that society were in Duluth, it would hardly answer the purpose suggested by the above. What have Detroit, Denver, Dallas and Des Moines to offer by way of organized protection if Sulzer's sometime thought becomes Sulzer's sometime Westward, Ho?

DEATH OF MR. GLOVER.

The late Mr. Chauncey J. Glover, manager and a builder of the Waco Times-Herald, owned many close, sincere friendships. Grief for the loss of a man thus possessed, a longtime citizen, a good father, husband and neighbor, is very surely a genuine grief.

Mr. Glover's associations in Waco, business and personal, were numerous and pleasant. He was a genial man, affable and given to interest in the welfare of those he cared for. For more than a score of years he labored zealously and well to establish the neighborhood daily on a firm basis on the business end. In this, the Times-Herald may be considered the chief monument in Waco to Mr. Glover's memory. His newspaper succeeded—its success was wholly his own success, the reward of conscientious, diligent service. It may be said of him that he was progressively ambitious for the advancement of Waco, as much so personally as in the very nature of his principal business concern. Mr. Glover will be deeply missed in this community—as father, as friend, as a factor in giving strength to one of the city's best friends, the Times-Herald. The editors and publishers of the Waco Morning News extend their sympathy to the family of the departed, to his intimates, to Mr. George Robinson and others of their contemporary's personnel in this severing of a tie of love, fidelity and comradeship.

Relief Regulations.  
A Constructive Policy Toward Fraternities.—The Daily Texan (State University).

Speed the day! Lest the fraternities persist in a destructive policy toward the university and a destructive policy toward the fraternities become imperative. Vide W. Wilson on the Troubles of Princeton.

THE PRESS ON CAUSES OF SUD- DEN DEATH.

The vision of sudden death in Harrison, Miss., when two young drug-crazed negroes were lynched after they had "shot up the town," killing nine other men of both races and wounding seventeen, brought from the northern press no shuddering exclamations over the southern sin of lynching, nor did the "race riot" headlines of one day's news go uncorrected on the next day's editorial page. "The part played by the white men who became victims was devoid of race unfairness, wholly an attempt to vindicate public order," says the Brooklyn Eagle; and "even the lynching, performed in the presence of a company of non-interference militia, was free from any doubt as to the identity of the negroes hanged, and was free from brutality save in the hanging." The people of the vicinity of Harrison are, in the St. Louis Globe-Democrat's opinion, "entitled to still greater praise for the self-restraint and sense of justice they displayed." For the press, north and south, agree in attributing the killings in Harrison to "mania resulting from the abuse of cocaine," and it is the prevalence of the drug habit among southern negroes that chiefly engages editorial attention. We read, for instance, in the New York Sun:

"That the use of drugs is general and constantly increasing among the negroes of the south has long been known, and it is asserted on seemingly respectable authority that indulgence in this vice is particularly prevalent where prohibition prevails."

"The liquor trade in the southern States had characteristics of unspeakable villainess and criminality, which drove thousands of respectable men

not opposed to the sale of decent liquor under respectable conditions into the ranks of the 'drys.' When drink was made inconvenient to obtain, the drug vendors found a rich field. Their wares are peddled in many forms, and the effects they produce on their victims are even worse than those chargeable to alcohol. Various schemes to keep the mixtures containing the drugs out of the hands of any except medical men and pharmacists have been suggested, but none of them has met with particular success either in the south or in the north."

Race antagonism is ever present in southern communities, the Sun reminds us, and "men low enough to furnish drink and drugs, regardless of the consequences, are found in every community." Laws, it adds, "may easily be passed, but how are they to be effectively enforced?" Yet it is to law that the southern press turns. To quote the New Orleans Picayune:

"Such outbreaks as occurred at Harrison are always possible in every section of the country where the negroes are numerous. The great majority of the colored people are peaceable enough, but there is a small element capable of attempting any sort of crime when crazed by drink or cocaine. How best to deal with this dangerous element is a problem not easily solved, but it ought to be possible to stop the sale of habit-forming drugs to negroes by imposing heavy penalties on all persons caught in such traffic."

All through the south, declares the Washington Times, "drugs and drugged liquors are bootlegged through drug communities, to the depraved elements of society, and consequently are inciting to such crazy crimes," and it concludes:

"State and national legislation alike are absolutely necessary to end the horribly demoralizing traffic in drugs and worse-than-whisky liquors that are sold constantly in increasing quantities."

A Typical Sulzerism.  
Had I obeyed the boss instead of my own idea I would still be governor and on the "organization" would be getting me on the back and telling the people I was a second Andrew Jackson.—Sulzer to the loving cup company.

We think not. Assuming there was a machine in Jackson's time, what did Jackson do to endear himself to the boss thereof? The "organization's" praise is not that a politician is a great man, but an useful tool. And the organization need not waste its time on soft soap. Tool and organization understand each other thoroughly. Had Sulzer obeyed Murphy—and Murphy is yet to be heard from, indirectly, concerning Tammany's side of the story of the "break"—Sulzer would have been told that he was a serviceable selection and could have another term. But this statement by Sulzer was not surprising in the circumstances of that night meeting, which for the grotesque and the comic put it all over the late Mr. Dickens's Eastwold election. One citizen cried that Bill would be the next president and another citizen announced that Bill would come back to the mansion next year. Had Mr. William Allen White waited a few years he would have had real life material for his, "A Most Lamentable Comedy."

THE DEMAND IS AT HOME.

The recent transfer of the United States from the small list of beef-exporting countries is sharply illustrated by the August figures of imports and exports of beef and beef cattle and a comparison thereof with the August figures of earlier years. This shows that the exports of beef and beef cattle have fallen from forty-four million dollars in the eight months of 1912, to \$5,931,842 in 1913. As to beef, the imports in 1904 were insufficient to justify their statement month by month, and the total of beef imported for consumption in the full fiscal year 1904 was but \$14,922, while the single month of July, 1913, showed a total importation of 642,394 pounds, valued at \$56,993; August, a total of 1,151,626 pounds valued at \$89,204; and September about an equal amount.

"Villa Arouses Germany" is the alarm that heads the report of Germans held in Torreon as hostages. We almost can believe that one of these days someone or something will really get action from someone or something else concerning the international phase of this Mexican mess.

"I'm pretty much of an Indian myself," says Sulzer. Lo, the poor—will there never be an end to the abuse heaped on the ultimate descendants of the victims of our forefathers' wholesale land outrages?

The action of the British minister to Mexico reminds that this is not the first time his government has picked a loser in a mixup over the control of

a nation. If it was merely a "coincidence" that Carden presented his credentials to Huerta the day after that dictatorship coup d'etat, England's diplomats should be schooled to meet conflict of common sense with coincidence.

The sickly surfeit of homicidal poisonings that is in the news dispatches these days by contrast makes the tale of the Borgian performances as light and pleasant as the usual prescribed "summer reading."

That Houston exodus from the Statehouse is the exodus the Statehouse needs least. It would be better for the State if there were a departure of persons rather than portraits.

Our president and our secretary of labor welcome the Pankhurst—with a string.

Texas Viewpoints.

Not for Little Richmond's.

"It is," admits Brownsville Herald, joining the ranks of General Conclusion, "it is to be a fight in Alabama between Hobson and Underwood. From all appearances it is to be a bitter fight." Bitter in animal spirit, doubtless, but not even bitter in ardent spirits. It cannot be imagined that that model, dry young man, the captain, would set 'em up to anything as remotely allied to liquor as is bitters.

No Such Luck.

San Saba Star expects too much and will be disappointed and disillusioned soon. "W.P. Lane," it informs, "one of the candidates for governor, says he will not submit his name to the preferential primary and gives them this parting shot." (The star quotes that Sir Roger bit of Lane's, the much-to-be-said-on-both-sides "parasitic leeches" passage). The Star's extra-expectation and illuminating illusion is in its terming this a "parting shot." Brother Lane (there is much meaning in that "brother") will be shooting the same sort of shots every day until the primary nine months hence, the day of the primary and pretty often after the primary, until he leaves public office on January 1, 1915.

Orthodox and Settled.

The opinion of Alice News is that "good roads will cause new people to move here, they will increase the value of land, decrease the cost of hauling products to and from market, save the teams, automobiles and 'boost' your religion." We have nothing to say concerning the order of listing these blessings for Alice, but—what we take it the News means good roads will make the little church in the crossroads and the hamlet more accessible. And that assuredly is "boosting religion" for those, and of those, with whom religion is impossible without church. Too, the News must mean that the saving of temper by good roads will conduce to a calmer, more cordial feeling by Jim Wellens toward the world and they who dwell therein.

Righteousness vs. Expediency.

Tyler Courier-Times: "By general agreement, so we are told by the press, the vice crusade has been discontinued in Dallas until after the State Fair is closed. We suppose that business reasons influenced the crusaders to tolerate this vice for two or three weeks or while Dallas is inviting everybody to come to the fair." An hit, Colonel! And when the fair grounds are deserted and the gates closed and the strangers have left the city, let not Dallas invoke the name of Righteousness for its "crusade." Evidently Dallas county's reformers in office know their Publius Syrus and neglect, or cannot comprehend or imitate, their Disraeli—they believe "it is sometimes expedient to forget who we are" and what we have; they cannot truly say, "Principle is ever my motto, not expediency." The State Fair is the State Fair—but vice we have with us always to crusade against. It is but logical to inquire whether, if vice is eradicated after the State Fair of 1913, it will be permitted to return and sojourn during the State Fair of 1914—since there seems to be expediency in withholding the heavy hand from vice during the fortnight of celebration.

Sympathetic as Well as Familiar.

"You are not a good citizen," Velasco World verifies, "unless you have thoroughly familiarized yourself with the advantages, development, accomplishments and needs of the city in which you make your abode." There must be more than this familiarity—there must be pride, sympathy and cooperation, especially in the matter of "needs" which are the common lot of cities. It is early true that many citizens carry their desire for this familiarity only to the point of ascertaining whether it will cost money to achieve these needs and if it will, the co-operative attitude and the sentiment of civic pride will not be available for the achievement.

Waco and The News.

The Preference in Interurbans.  
The "Grasshopper," a motor car in service on the H. & T. C. between Waco and Marlin, takes the place, largely, for an interurban line. Hence Marlin is looking Tewmpleward for an interurban. Of course a line from Waco would be acceptable, but the Mooreville line would be more practicable.—Marlin Democrat.

Modest Acknowledgement.

While our native modesty restrains us from printing all the nice things that are said about The Times, we cannot refrain from expressing our appreciation of the exquisite bouquet from the Waco Morning News. "Praise from Sir Hubert"—well, a compliment from such a source is all the more appreciable, and makes us more determined to try and live up to the standard which Brother Harris has set for us.—Laredo Times.

Well, What Is Their Course?

It is a time, high time, for just such an utterance on "Waco's Company of Street Loafers" as that that came from the Waco News. It is so timely that we are glad to reproduce it in full—as evidence of posterity that protest against evils of that nature were not lacking in Waco. The News has done a service to the good women of the city and we cannot doubt what will be the course of those who can suppress the nuisance.—Waco Tribune.

And Joe Is No Harp.

The Express having suggested to Editor Boehmer that if he ran a newspaper to please everybody it would be more properly called the "Heavenly Harp," Editor Harris of the Waco News responds that it is a well settled point in theology that the harp is the official musical instrument in the other world. Maybe not, Micah, but Joe Boehmer wouldn't be able to play on any of them, even if he should get near enough.—San Antonio Express.

We Are Made Ashamed.

And one-half of the world doesn't know how the other half bet.—Waco Morning News.  
Colonel Harris is delightfully pessimistic, and incongruous as well. Nothing is easier, at all; and Colonel Harris, whose paragraphs glitter and abound in sharp touches of human nature, is hereby made ashamed of himself. Those who bet on the Athletics wear a broad, deliberate, laughing smile, and their sweetest expression is "I told you so!" and those who didn't wear a melancholy frown, look ill at ease, and with green persimmons avoid their more general fare, protest, talk about hard luck, the uncertainty of a short series, and try to fool themselves with the thought that the Giants should have if they didn't.—Corpus Christi Caller.

An Imagined "Being."  
This chuckle from Hugh Nugent Fitzgerald of the F. W. R. smells like that most unkindest out of all: "Hon. Will H. Mayes, lieutenant governor of Texas and editor of the Brownwood Bulletin, has refused an offer of a professorship in journalism at the State university. Journalist Mayes has another ambition. He has measured Oscar R. Colquitt's shoes and is of the opinion that they fit his feet to a 'T.' There is James H. Quinn, who would offer him the job? He admits, modestly, 'tis true, that he is the ablest living newspaper man in the southwest. If we are to have a dean of journalism at Austin, why not the ablest representative of the journalistic species under the sky of Texas? It will be observed with what delicate phrasing the sting is hidden.—Weatherford Herald.

A Dec. of Prin.  
The bankers got together in Chicago and trounced the currency bill. They are repeating the trouncing in Boston. We suppose the next trouncing will be essayed in Frisco—then the bankers will come forward with the plea that the whole nation is rising in protest against the works of Messrs. Glass and Owen.—Waco Morning News.  
Shall we permit the bankers to run the banks, the lawyers to run the law and the farmers to run the farm? In the language of the great humorist, whatever he was—"Nay, nay, Pearl-line!" These things that affect the welfare of the great mass of people must be respected. Our president realizes that there seems to be of the opinion that the trouncing of the currency bill is a popular uprising. If the government should give heed to the wishes of special interests in construction of its new currency laws, then indeed would the rest of us get the hot end of it.—Texas Press, in Temple Telegram.

Letters From the People  
In Justice to the Power Plant.  
To the Waco Morning News:  
I read an article in your paper this morning captioned "Power Plant Play Killjoy." I beg to ask you to give me the privilege of your columns to explain this matter. The power plant and nothing whatever to do with the interurban last night at the Auditorium. This interruption was due entirely to a broken connection at the corner of the alley and Sixth street between Austin and Washington and was entirely unforeseen and unavoidable. We submit that the interruption was taken care of in the very shortest possible time (20 minutes) and in fact much sooner than might have been expected under those conditions. This explanation is made in justice to the power plant.  
Yours very truly,  
TEXAS LIGHT AND POWER CO.,  
W. G. Rathell, Manager.

Garrison Goes to Panama.  
Washington, Oct. 21.—Secretary of War Garrison left tonight for New York to sail tomorrow for the Panama canal, where he will inspect the construction work and confer with officials over plans for a permanent government for the canal zone.  
With Mr. Garrison were Mrs. Garrison, Walter R. Redigo, his secretary, and Brigadier General Erasmus M. Weaver, chief of coast artillery. At Colon the party will be joined by Major General Blackley and Gen. Chamberlain, both of the coast artillery corps, who are experts on problems of defense. The officers have been going over the fortifications and proposed defenses in the canal zone and are prepared to lay the various problems of defense before Mr. Garrison and General Weaver.

A golf club containing in its head a device to measure the force of blows that are struck has been patented in England.

REDFIELD WANTS AID

SAYS MONEY NEEDED TO INCREASE AMERICAN BUSINESS ABROAD.

is at Flood—Department Has Ambitious Program of Investigation.

Detroit, Mich., Oct. 21.—With the declaration that "the tide of American business in the foreign field is at its flood" and that means must be employed to maintain it, Secretary Redfield, addressing the board of commerce here today, made a direct appeal to business men to ask congress to appropriate more funds for the prosecution of the work of his department.

The secretary explained his proposed reform of commercial representation abroad, through the appointment of a corps of special agents and supervision of the commercial activities of the various consuls.

Mr. Redfield declared his department had an ambitious program of investigation and trade furtherance. He said it was the intention of the government to press vigorously "if funds were provided."

"For example," said he, "at this present moment the inquiry into the pottery industry, which is a very important and intended to be a very helpful investigation, is almost at a standstill for lack of funds."  
"I assume you are aware of the great advance of American export trade in manufactures during the last year. Time was, within the memory of most of you, when we sold abroad chiefly the products of our fields and farms or of our mines. We were known as a food-exporting country, and in a sense did largely feed the nations. That day is gone. Our exports of crude foodstuffs are but 18 per cent of the total, and the major place in our export trade is filled by the products of our manufactures, in which work you of Detroit have had a large share."

"To sell our manufactures abroad to the extent of over fifteen hundred million in value in one year is no small thing, but when the continued expansion at the approximate rate of half a million dollars daily, and when in this total the largest item by far is that of fully finished manufactures, which is not only, as I have said, the biggest item, but which is growing fastest, then the statement is very much more marked."

In concluding, the secretary told his hearers that, if the funds were forthcoming, he proposed to reorganize the bureau of corporations so that a systematic inquiry into all combinations could be made. This, he said, would not be undertaken in any ingenuitous spirit, but solely for the purpose of securing information which he believed the government should have.

Brownlow's Attorney Makes a Correction

To the Public:  
There appeared in the columns of the Waco Morning News of yesterday a news article under the following headlines in bold type:  
"Four Kiddies in Filibuster Flight. Brownlow in Jail. Mother of Children Dead. Organisms Items Only Refuge. Probation Officer to Take Charge."

And the article following says:  
"Proceedings were instituted in the county court yesterday to have Archie, aged twelve, Bertie, aged nine, Helene, aged six, and Maudie, aged four years, children of E. A. Brownlow, declared dependent, and placed in charge of the county probation officer, because Brownlow, among other things, had been indicted by the grand jury for statutory rape."  
As attorney for Mr. Brownlow and in justice to him and his family, I feel that the News reading public should be informed of the error. I am informed by a reporter for the News that the article was obtained from E. E. Ingram on day before yesterday the information upon which the article was written, and that he thought he was giving correct news, while it was news. Now the facts are that Mr. Ingram did file his affidavit in county court on October 14, alleging the Brownlow children to be dependent children, and alleging that charges had been preferred against him (Brownlow) alleging a statutory rape upon his daughter, and as a matter of fact no further proceedings have been instituted or had in this matter. On October 14 and no proceeding was instituted in a court in the matter day before yesterday as stated in the article referred to.

As this case is set for hearing in the county court on today, and while I do not attempt or desire to say for what purpose this day was given to the Morning News for publication yesterday, and purporting to be news of the happenings of the day before, it does seem to me that the article can have no other effect than to prejudice the minds of the public against Mr. Brownlow before he has been tried and just upon the eve of his trial. Especially inasmuch as the jury to try this case, and the public who read the article, will be summoned today from the day before yesterday the Morning News article of yesterday and who might have been prejudiced thereby, said article further states that "the children are now being cared for by their father brother whom it is said is not able to care for them, when as a matter of fact I know personally that Mr. Brownlow, though in jail, is now and has been since he has been in jail furnishing money for the support and care of his children. He is not in jail for the purpose of being against him and restored to his children. Moreover the alleged injured girl in the case has made three or four conflicting statements as to her accusations. She first having accused her father, and a few days afterward renounced her accusation as false and untrue in every particular, claiming that she had been induced by others to make such statements. When renewing her former accusation and making other conflicting statements.

Giving prominence, as I do, to the reading matter of the Morning News, I feel that this explanation should come from me in justice to my client without any criticism of the Morning News or any one else in the hope that a fair-minded public will withhold their opinion in this matter until Mr. Brownlow has had a fair, impartial and public trial for which he has been anxiously awaiting since he has been accused, and upon which charge he confidently expects to be acquitted. (Signed) E. H. PEARCE, Attorney.

# Warner's Safe Remedies

## The Remedy for Rheumatism

Acute rheumatism is an inflammation of various parts of the body, characterized by general fever, by pain, heat, redness, and swelling of the joints affected, and by a tendency to leave one joint suddenly and fasten upon another. It is primarily the result of the failure of the kidneys to take uric acid out of the blood.

### Warner's Safe Rheumatic Remedy

is one of the most effective remedies known to medicine in expelling uric acid from the system, and it thereby removes the rheumatic pains and eliminates all traces of the disease.

"I had rheumatism so badly that I was unable to walk except with great difficulty, and I had taken a large quantity of doctor's medicine with very little relief. Four bottles of Warner's Safe Rheumatic Remedy entirely cleared my system of rheumatism."—Mrs. B. M. Crehore, Nashville, Tenn.

## MENOCAL MAKES VEILED THREATS

CUBAN PRESIDENT ISSUES MANIFESTO AS RESULT OF CONGRESSIONAL TROUBLES.

## DOES NOT TELL INTENTIONS

Liberals Use Obstructionary Policy to Prevent Authorization of Loan of \$15,000,000.

Havana, Oct. 21.—Intense interest attaches to the probable effect of President Menocal's manifesto regarding the obstructionist policy of the liberals in preventing a quorum at the extraordinary session of congress with the object of withholding authorization for a new loan of \$15,000,000. A majority of the newspapers accord to President Menocal the highest praise for his patriotic action and predict that the Cuban people will rally to his support. In political circles fears are expressed that the manifesto will not have the effect of compelling the attendance of a quorum and that there also is a possibility that the struggle may extend to the regular session which will begin November 2.

The legislative committee of the liberal party has agreed unanimously to approve the conduct of the senators and representatives who have failed to attend the sessions of congress on the ground that the presidential call was illegal and also has appointed a committee to prepare a manifesto in reply to that issued by the president. The liberals express their determination to continue their obstructive tactics and defeat the loan. President Menocal's manifesto says: "I have been compelled to address the people of the republic directly by reason of the gravest confusion in public affairs, produced by the lack of a quorum in both houses of congress, whereby the working of all departments of the government has been paralyzed. The people should understand the character of this most lamentable conflict and be prepared for what may result from it." The president explains then that the urgency of the loan is caused by the necessity of paying off the indebtedness incurred by the previous liberal administration.

**Washington Concerned.**—Washington, Oct. 21.—The state department officials were concerned tonight over the situation which has arisen in Havana as a result of refusal of the Cuban congress to consider the proposed foreign loan.

There was much speculation as to what President Menocal can do if his congress continues to refuse to come together. His call for the extraordinary session set October 1 as the day for the two bodies to convene, but postponement from time to time has been necessary owing to the continued refusal of liberal senators and representatives to appear.

**Two-Thirds Must Be Present.**—The presence of two-thirds of both houses is required under the Cuban constitution in order to convene congress and there is no provision for the arrest of enough members to constitute a quorum, as may be done under the American system. Under the circumstances officials here are at a loss to know what means President Menocal can employ in carrying out his drastic action which his pronouncement indicates he deems necessary.

While the Cuban president can adjourn congress, it was pointed out that he cannot dissolve the body and call for elections and that the present congress was elected last April for two years.

No statement of the attitude of the American state department could be obtained tonight, but it is known that the United States several months ago, under the authority invested in it by the Platt amendment received from President Menocal a request for permission to negotiate the loan and acceded to the proposition.

## DISCUSS VOCATIONAL GUIDANCE

Dr. Leonard P. Ayres Says Out of 9000 Occupations 21 Are Stable.

Grand Rapids, Mich., Oct. 21.—With nearly one thousand delegates present, the vocational guidance conference began its third annual meeting here tonight. The larger social, economic and educational bearings of vocational guidance was the theme of Owen R. Lovejoy, secretary of the National Child Labor committee. Dr. Leonard P. Ayres, director of educational, Russell Sage foundation, and Prof. Geo. R. Mead of the University of Chicago, who spoke at the opening session.

For the first time the national society for the promotion of industrial education and the vocational guidance conference are holding a joint meeting. Out of 9,000 different ways in which Americans gain a livelihood, occupations that truly can be termed "constant occupations," number only twenty-one, said Dr. Ayres, whose statements were a part of the first public announcement of the findings of an investigation of vocational guidance conducted by the Russell Sage foundation. Studies carried on in seventy-eight American school systems, he said, showed that upon reaching the end of the compulsory education period one-half of the children in the public schools are in the sixth grade or below.

Making a plea for the minor children calling that he should be regarded as a ward of the state, Mr. Lovejoy said:

"Let us insist that industries offering this training to children shall become an adjunct of the schools. Let us insist that the child's future usefulness and the present shall be the measure of success of this guidance into vocations and let us resist every scheme to make the labor of children a makeshift to maintain themselves or their families."

**Lane Delivers San Antonio Bonds.**—Austin, Tex., Oct. 21.—Comptroller Lane delivered to City Treasurer Frank Gallagher of San Antonio today the San Antonio Improvement bonds amounting to \$1,450,000. Treasurer Gallagher was accompanied by Vice Mayor Albert Stevens, Chief of Police Fred H. Lancaster and City Detective Hart Mussey.

## FILIPINOS LOOK FOR FREEDOM

PHILIPPINE ASSEMBLY ADOPTS RESOLUTION REPLYING TO WILSON'S MESSAGE.

## BELIEVE ARE NOW CAPABLE

Has Been Aspiration for 13 Years and Feel is About to Be Realized.

Washington, Oct. 21.—The answer of the Philippines to President Wilson's message, delivered through Governor General Harrison, came by cable today in the form of a resolution adopted by the Philippine assembly. Emphatic belief in the right of the Filipinos to be free is expressed in the resolutions and the president's words "are gratefully received as a categorical declaration of the purpose of the nation to recognize the independence of the islands."

The text of the resolution, made public by the war department, follows: "We, the representatives of the Philippine people constituting the Philippine assembly, solemnly declare that it is evident to us that the Filipino people have the right to be free and independent so that in advancing along the road of progress, it will be its own responsibility to work out its prosperity and manage its own destinies for all the purposes of life. This was the aspiration of the people when it took up arms against Spain and the presence of the American flag first on Manila bay and then in the interior of the archipelago did not modify, but rather encouraged and strengthened the aspiration, despite all the reverses suffered in war and difficulties encountered in peace."

**People Ratify Aspiration.**—"Beirats called to the ballot box, the people again and again ratified this aspiration and since the inauguration of the Philippine assembly the national representative body has been acting in accordance with the popular will only; thus in the midst of the most adverse circumstances, the ideal of the people never wavered and was respectfully and frankly brought before the powers of the sovereign country on every propitious occasion. On the other hand our faith in the justice of the American people was a great and persistent ideal. We have waited in patience, confident that sooner or later the errors of injustice would be redressed."

"The message of the president of the United States to the Filipino people is eloquent proof that we have not waited in vain. We accept said message with love and gratitude and consider it a categorical declaration of the purpose of the nation to recognize the independence of the islands. The immediate step of granting us a majority on the commission places in our hands the instruments of power and responsibility for the establishment by ourselves of a stable Filipino government. We fully appreciate and are deeply grateful for the confidence reposed in us by the government of the United States. We look upon the appointment of the Hon. Francis Burton Harrison as governor general as the unmistakable harbinger of the new era in which we expect the attitude of the people to be one of co-operation; and, finally, we believe that the experiments of imperialism have come to an end and that colonial exploitation has passed into history."

**Epoch of Mistrust Closed.**—"The epoch of mistrust has been closed and the Filipinos, upon having thrown open to them the doors of opportunity, are required to assume the burden of responsibility which it would be inexcusable cowardice on their part to avoid or decline. Owing to this, a few days have sufficed to bring about a good understanding between Americans and Filipinos, which it had been impossible to establish during the thirteen years past. We are convinced that every onward step, while relieving the American government of its responsibility in the islands, will, in the past, fully demonstrate the present capacity of the Filipino people to establish a government of its own and guarantee in a permanent manner the safety under such government of the life, property and liberty of the residents of the islands, nations as well as foreigners."

"We do not wish to say by this that there will not be difficulties and embarrassments, nor do we even expect that the campaign, open or concealed of the enemies of the Filipino cause, will cease soon, but we feel sure that through a conservative use of the power entrusted to us, the Filipino people will, with God's favor and the help of America, emerge triumphantly from the test, however difficult it may be."

**School Building at Comanche.**—Comanche, Tex., Oct. 21.—Work has started on the new \$10,000 grammar school at this place and will be rushed to an early completion. The structure will be modern throughout.

## FALLING HAIR MEANS DANDRUFF IS ACTIVE

SAVE YOUR HAIR! GET A 25 CENT BOTTLE OF DANDERINE RIGHT NOW.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life. It produces a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair new hair—growing all over the scalp. (Advertisement.)

## A Word in Regard to the Dry Goods End of the Graham-Jarrell Business

It seems that the impression prevails in some quarters this is strictly a Ready-to-Wear and Millinery business—that nothing else is carried in stock but these lines.

Such is not the case—our stocks of regular dry goods or department store merchandise are among the largest in the state—and buying as we do in large quantities (18 big stores), we own merchandise at prices that permit of unusually low price quotations by this store on every article offered for sale.

In this morning's ad we give you a few samples of our price making ability from the different departments on the first floor.

## In the Silk Section

We offer some values that merit the consideration of every woman. All Silk Crepe Meteor—40-inch width—a \$2.25 value—the Graham-Jarrell price, \$2.00 yard. Yard-wide Moire Silks, in Black and a complete color range, at \$1.50 yard. An excellent quality 36-inch Black Moire Silk, \$1.25 yard.

## In the Cotton Goods Section

Here are a few of the many Graham-Jarrell good values. 36-inch Gold Medal Bleached Domestic, sold the world over for 10c yard, this store's price 8 1/2c yard. Outing Flannels, in solid colors and a full line of dark and light styles, 10c yard. Ducky Fleece Kimona Outings, in a beautiful line of patterns, 15c a yard. Robelard Fleece, for dressing gowns and bath robes, heavy weight, 25c a yard. The best 10c and 12 1/2c Gingham made. "Utility" Gingham at 10c, shown in hundreds of beautiful fall designs, fast colors. "Red Seal" Gingham at 12 1/2c. This is the best gingham on the market at this price. Colors are fast, patterns beautiful. 28-inch Bookfold Percale, a hundred bolts to choose from, regular 7c values, 5c a yard. 36-inch Percale, good range patterns, 10c a yard. 36-inch Agatha Percale, regular 15c value, shown in a big range of shirting and dress styles. Standard Calico, in all colors, 5c a yard.

## Underwear Section

Here we offer some of the best values to be found in Waco in Women's and Children's Underwear.

**At 25c—Boys' Union Suits**, in fleeced lined ribbed cotton, sizes 4 to 10.

**At 50c—Ladies' fleeced lined bleached cotton Shirts and Pants**, also a heavier weight cream garment is shown for those wanting heavier garments. These garments are extra values for the price. **At 50c** we show an excellent bleached Union Suit for women, also a splendid Union Suit in bleached for misses; sizes 2 to 16.

## Hair Switches

The Graham-Jarrell Co. offers some very remarkable values in Hair Switches, as follows:

**At \$1.50—3 strand 24-inch Switches.**

**At \$1.95—3 strand 26-inch Switches.**

**At \$2.95—3 strand French Switches.**

**At \$3.95—3 strand 30-inch Switches.**

**At \$4.95—4 strand French Switches.**

These Switches are shown in practically all shades.

## Embroidered Initial Hdkfs.

Daintily embroidered Initial Handkerchiefs, shown in pink, blue, lavender and white initials, splendid values, 15c; 2 for 25c.

## Jumbo Boy Dolls 59c

This is a Dollar Doll that the children are crazy about. For today we offer a small lot at this price—59c.

## "BEYOND THE GRAVE"

PROF. JOHNSON, BIBLE STUDENT, DELVES INTO MYSTERIES.

Representative of National Bible Study Association Delivers Interesting Address.

Speaking to a large audience at the Knights of Columbus hall last night, Prof. S. L. Johnson of Columbus, Ohio, a Bible student of national reputation, carried his hearers, in a series of brilliant and vivid word pictures, to the "What Lies Beyond the Grave." Interest ran high throughout his entire discourse, which lasted for over an hour. The lecture covered much of the scriptures from Genesis to Revelations, and few sermons have been preached in which the Bible was so freely quoted.

The speaker was very strong in his contention that there is an opportunity for purification from sin beyond the grave. Nor was he without support from the Book of Books. In fact, he said that the scriptures as a whole supported this thought. "Every knee shall bow and every tongue confess that He is God." Since this has never yet taken place with the great majority of mankind its fulfillment must be future; beyond the grave many knees will bow which have never bowed before. The Lord is that true light which lighteth every man that cometh into the world; the billions not enlightened on this side of the grave must be enlightened on the other side, else God's word is false. "If I be lifted up, will draw all men unto me." Surely the Lord has not drawn all men unto Him on this side of the grave; it must be beyond the grave where these words will be fulfilled.

**Two Days of Salvation.**

He said in part: "Some might object, quoting the text: 'Now is the day of salvation, now is the acceptable time.' But this verse reads a little differently in the language in which it was first written. Instead of reading, 'Now is the day,' as does the English, the Hebrew reads, 'Now is the day of salvation, now is an acceptable time,' implying that there is another day of salvation, and another acceptable time. These blunders in translation, made several hundred years ago, have caused many

otherwise well thinking people to suppose that God is accepting a few now who chance to hear of Christ in this the only day of salvation, and that He will consign all the rest, the vast majority of His creatures, to a hell of fire and brimstone to be tortured forever. Recently, however, all Christian people are awakening more and more to the real teachings of the Bible, and to a deeper appreciation of the fact that God is love."

**Two Judgment Days.**—Prof. Johnson also pointed out two judgment days, corresponding to the two days of salvation, arguing that if there are two distinct periods of salvation, there must of necessity be two separate days of judgment. He showed from the scriptures that "the saints shall judge the world" (1 Cor. 6:2), then it is evident that the judgment day of the saints must precede the day of judgment of the world. Continuing he showed that while the judgment of the saints, those who are really Christians, is now in progress and has been for over 1,800 years, the judgment of the world must wait until the church's judgment is completed. The world's judgment day, as the Apostle Peter shows, is to be 1,000 years long. See 1 Peter 3:7-8. This will be ample time in which to resurrect all mankind and give them an opportunity to learn of Christ and attain unto eternal life, or reject Him and pass into eternal death—the second death.

**Two Resurrections.**—It was then pointed out that the subject of the resurrection is sometimes misunderstood; that there are in fact two resurrections. "Blessed and holy is he that hath part in the first resurrection."—Rev. 20:6. "There shall be a resurrection, both of the just and of the unjust."

Our Lord referred to these two resurrections when He said: "Marvel not at this, for the hour is coming, in which all that are in the graves shall hear His voice, and shall come forth: they that have done good unto the resurrection of life; and they that have done evil unto the resurrection of damnation."—John 5:28-29. The Revised Version better translated it, "unto the resurrection of judgment."

Since Christ has given Himself "a ransom for all, to be testified in due time," it must of necessity follow that all will "come unto the knowledge of the truth."—1 Tim. 2:4-6. The scrip-

tures clearly teach that beyond the grave the church will be with her Lord in heaven, "In the glory celestial," and that the world of mankind will be given a fair chance, an opportunity to accept Christ and eternal life on earth, "for the glory terrestrial" (1 Cor. 15:40), for Christ "is the propitiation for our sins, and not for ours only, but also for the sins of the whole world."—1 John 2:2. "Blessed are the meek, for they shall inherit the earth." Then the spirit and the bride (which is now being selected), will say come. Whoever will may then come, and take of the water of life freely.

**Doughty Goes to Dallas.**—Austin, Tex., Oct. 21.—W. E. Doughty, state superintendent of public instruction, left tonight for Dallas. While in that city he will complete arrangements for the meeting of the State Teachers' association to be held next month. He predicts an attendance of 4,000 teachers.

**Ed. R. Kone to Dallas.**—Austin, Tex., Oct. 21.—Ed. R. Kone, commissioner of agriculture, and Chief Clerk John C. Lindsay left today for Dallas.

## IF HEADACHY, DIZZY BILIOUS, "CASCARETS"

CLEAN YOUR LIVER AND WASTE-CLOGGED BOWELS TONIGHT! FEEL BULLY!

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes, your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

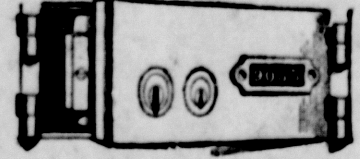

The will, insurance policy, mortgage, note, stock inventory, bond or stock certificate, when lost or destroyed causes endless trouble, misery and legal expense

Put your valuable papers, keepsakes, etc., in one of our Safe Deposit Boxes and you will never have to worry about them.

Massive steel vaults and Yale Locks will keep them safe from all harm.

Prices as cheap as  
\$1.00 a year and up

107 SOUTH FIFTH STREET

### World's Richest Iron Mine.

(Daily Consular Reports.)  
The richest and probably the largest iron-ore mine in the world is located at Kiruna, Lapland, in latitude 68½ north, which is about the same as the northernmost boundary of Alaska. The climate is somewhat milder than in Alaska, and these mines are worked the year around.  
About 1600 men are employed, and the equipment is all of the most modern machinery obtainable. Machine tools for the repair shop, air compressors, and rock drills and several of the largest steam and electric shovels are of American make.

### A Perfect Lady.

(Cleveland Plain Dealer.)  
One of the papers is running a contest about "What is a perfect lady?" There is a variety of opinions as to that, but do you know what a perfect lady is? A most dealer in the east gave a definition the other day which has been sent us by a correspondent. Our friend's wife was doing her marketing, and inquired about some new neighbors of hers who traded at the same shop.  
"Well, she's a perfect lady," said the butcher. "She don't know one cut of meat from another."

Investigation by a Harvard scientist has convinced him that the germs of infantile paralysis are carried by stable flies.

## FELIX DIAZ WILL LAND

CANDIDATE PERMITTED TO ENTER COUNTRY BUT MUST BE NO DEMONSTRATION.

Orders from Capital Say Over-Enthusiasm Will Be Signal for Troops to Fire.

Vera Cruz, Oct. 21.—General Felix Diaz, candidate for the Mexican presidency, who is on his way to Vera Cruz aboard the steamer Corcovado, will be permitted to land. But there must be no demonstration. This is the order received from the capital.

A small army of detectives is here from Mexico City and troops are held in quarters. Should the enthusiasm of the Diaz partisans outweigh their judgment, and in the opinion of the authorities the peace of the city be thereby disturbed, the soldiers and police have orders to shoot.

Col. Vidaurazaga, secretary to General Blanquet, minister of war, is aboard the gunboat Zaragoza. The gunboat has steam up and unless orders are changed will run alongside the Corcovado before she docks. Col. Vidaurazaga will request the permission of the Diaz partisans to maintain good order and in return for such a promise will assure General Diaz that he will receive guarantees for his protection.

The Corcovado is not expected to dock before morning. She is a German boat and following close behind is the German gunboat Hertha.

Not a great number of partisans are expected to greet their chief. Those here are headed by General Rejuna, candidate for the vice presidency. Senator Rejuna believes that the ticket will be withdrawn, but will confer with General Diaz tomorrow on the subject.

The candidacy of General Huerta and General Blanquet was proclaimed in unsigned handbills distributed here today. Adherents of General Diaz profess to have information that the state officials throughout that part of the republic controlled by the government have agreed to favor the Huerta-Blanquet ticket, and consider it probable that Diaz will readily agree with them that under such circumstances competition would be useless.

General Diaz in a wireless message received this evening announced his intention of proceeding to Mexico City tomorrow.

### Outrages in Durango.

San Diego, Oct. 21.—Tales of alleged outrages in the state and city of Durango, Mex., were related today at Red Cross headquarters by refugees who arrived on the transport Buford yesterday from Gulf of California ports.

"One of the worst outrages discussed on board the Buford," said Mrs. Mary Towleson of Durango, en route to Carriso, N. M., "was that inflicted on a young American and his wife at Durango. The revolutionists of General Carranza's forces seized the couple in their home. They roped the husband and tied his wife to her bed, where they finally killed her."

"Twenty-seven Americans were lined up against a building in Durango to be shot by the rebels, but just as the first man was to be shot, a Mexican maid rushed in front of him and pleaded for his life. Other Mexican girls joined in the plea for mercy, and the Americans were spared."

"While there has been some restraint to rob and murder as far as Americans are concerned, no mercy is shown rich Mexicans. All through Durango the fine residences of the rich have been turned into stables by rebels. It is common to see mansions with horses' heads protruding from the parlor windows, while the wives of rebel soldiers parade in fine silk gowns, displaying all manner of jewelry."

"Whatever the rebels seize and cannot use they immediately burn."

One man reached Manzanillo from Durango entirely naked, according to the refugees.

Another, W. I. Dawson, who started with \$1,100, reached Guaymas with only a shirt and a pair of trousers, the rebels having robbed him of even his shoes, hose and hat.

### U. S. Warns Villa.

Mexico City, Oct. 21.—The aid of the American state department has been extended to the Germans, French, English and Spaniards held by the rebel General Villa at Torreon. Through the American consular agent at Torreon the rebel chief has been advised that the American government expects the same protection and privileges shall be extended to other nations as are enjoyed by Americans.

Villa has been asked pointedly to permit these people to depart from the city if they so desire, or to give them assurances of proper protection, should they remain according to dispatches from Saltillo.

Villa is reported to be holding the

## ADMITS SHE IS MARRIED AGAIN

Three adventures on the matrimonial seas, two of which were elopements veiled in great secrecy, have been charted against Mrs. Rowland A. Curry, whose marriage to Rowland A. Curry, wealthy building contractor, of Cleveland, Ohio, became known lately.

The news of this marriage, which took place on July 6 last, followed an elopement to Stamford, Conn., within a month after Mrs. Curry had obtained a divorce from Walter C. White, of the White company, manufacturers of automobiles and sewing machines, will be received with surprise by a wide circle of friends in New York, Cleveland and in cities of Europe where Mrs. Curry's career as a musician was followed several years ago with much interest.

foreigners as hostages against an attack by the federal forces.

### Constitutionalists at San Fernando.

Matamoras, Oct. 21.—One thousand constitutionalist soldiers under Cois Santos Coy and Sanchez Davilla have reached San Fernando, about 20 miles south of here, en route to Matamoras, according to telephone advice to headquarters here today. These troops are from Torreon, having taken part in an unsuccessful siege on that city before its recent capture by General Villa.

It is thought the troops are coming here for new mounts and supplies. They are expected within three days.

### Tellez Has 1,000 Soldiers.

Laredo, Oct. 21.—General Tellez will leave Nuevo Laredo tomorrow for the south with 1,000 federal soldiers, representing all branches of the army. General Maas will accompany him. Tellez's destination is not given but it is surmised he will try to push his way into Saltillo. Unless General Maas, recently appointed governor of Coahuila, reaches Saltillo and issues his proclamation by Saturday there can be no election held in Coahuila Sunday.

### Not Responsible for Porto Ricans.

Washington, Oct. 21.—Comptroller of the Treasury Downey today decided that native born Porto Ricans, destitute in Mexico, were entitled to the same privilege of transportation from Mexico to their homes at government expense as citizens of the continental United States under the recent act of congress providing relief for American citizens in Mexico.

### Fighting Near Monterey.

Laredo, Oct. 21.—Fierce fighting has been reported west of Monterey. General Navarette has been ordered to proceed there from Lampazos, as it is rumored the city is threatened.

### Druggists After Certificates.

Dallas, Oct. 21.—Druggists from all sections of the state who are not holders of a regular state license gathered in Dallas this morning to appear before the board of examining pharmacists for examination for certificates to replace the old permits issued five years ago. The examination is being held in the afternoon in the assembly room of the Katy building, ground floor. The board had at least 160 applicants for the test.

### Interurban Business Good.

The interurban line between Waco and Dallas continues to prove attractive to the traveling public, the patronage showing a steady increase from day to day. Officers of the company express themselves as gratified with the present business the road is doing and the bright prospect for steadily increasing patronage.

## SUSPECT A PLOT ON LIFE OF KING

KING OF SAXONY.

A mysterious stranger armed with a loaded revolver and a dagger was arrested in a theatre at Dresden, Germany, where he supposed the King of Saxony and the Grand Duke Cyril of Russia were among the audience. The arrest caused reports to be put in circulation of a plot to assassinate the King.

# SUNNY BROOK

## THE PURE FOOD WHISKEY

The Inspector Is Back Of Every Bottle

Every time the clock ticks, a New Name is added to Sunny Brook's list of Life Members—it gains friends every day, and keeps them all. Sunny Brook is a safe, sane satisfying stimulant—its exquisite flavor, soft mellowness and high tonic properties have made it the most popular beverage everywhere—North, South, East and West.

Sunny Brook keeps the nerves right, the grip tight, and the heart light. Every bottle is sealed with the Green Government Stamp, which shows that it is genuine, straight, natural whiskey, and U. S. Government Standard—100% proof. Furthermore, when you buy Sunny Brook—The Pure Food Whiskey—you have the guarantee of the Largest Distillers of Fine, Old Whiskey in the World, that it is scientifically distilled and carefully aged in the good, old, honest Sunny Brook way.

SUNNY BROOK is now bottled with our own patented "Teister" stoppers. One twist un-corks or re-corks the bottle tight. No Need for Cork Screws.

## DISCUSS TRUCK PROBLEMS

Farmers at Fort Worth Hold Two Sessions—Afternoon Meeting Is Executive.

Fort Worth, Oct. 21.—About 300 members of the Texas Farmers' union were in session today in answer to a call issued by J. E. Pearson, president of the Northwest Texas Farmers' union, to meet in Fort Worth to discuss a better marketing for truck produce. The morning session was held in the assembly room at the Chamber of Commerce and the afternoon session at the Labor Temple. The transfer from the Chamber of Commerce to the Labor Temple was made necessary on account of the size of the crowd.

J. E. Pearson presided. In opening the meeting Chairman Pearson said that the farmers of Texas had been devoting all of their time to marketing cotton and had neglected the other crops. He said the truck farmers were in need of assistance and he had called the meeting to adopt a uniform system in handling the small crops.

### Newspaper Men Excluded.

The forenoon session was given over to addresses. Although the meeting was not executive and different speakers appeared on the program, yet all newspaper men and others were excluded from the room. The meeting, which began at 1:30 in the afternoon at Labor Temple, was executive.

Clarence Gouley, member of the commission appointed by Governor Colquitt to study marketing conditions in Europe, told the farmers of his trip

abroad and the conditions of the European farmers. He finished talking at 12:30 p. m., when the convention took a recess of an hour for lunch.

W. D. Lewis, president of the Texas Farmers' union, called the attention of the farmers to the necessity of closer co-operation. He argued that the union will succeed just so far as its membership succeeds.

W. P. Young, agriculture commissioner for the Sunset-Central lines at Houston, discussed co-operation between farmers and business men. He was followed by E. A. Calvin, representative in the state legislature from Harris county. Calvin spoke on "Proper Warehouse System." F. M. Grimberg, former member of the union's executive committee, made a short talk on matters pertaining to the working of the union.

The meeting adjourned tonight and those attending go to Dallas Wednesday to attend the farmers' meeting at the fair grounds.

W. D. Lewis, president of the Texas Farmers' union, and other officials at headquarters will go to Dallas to attend the meeting. C. M. Barrett, national president, will deliver an address.

While in Dallas President Lewis expects to have the opportunity to re-iterate an interview recently published in one of the Dallas papers coming from W. B. Yearby, vice president of the Southern States Cotton Corporation. Yearby attacked the union, charging it had allied itself with the corporate interests of the state and had become influential in bringing about legislation injurious to the farmers and laboring men of Texas.

From wood of the red gum tree is made much of the so-called "Circassian walnut" furniture.

## DALLAS DAY AT FAIR SUCCESS

For First Time in Years Is Sun Shining and Attendance Records Are Broken.

Dallas, Oct. 21.—For the first time in years, Dallas day at the Texas State fair had sunshiny weather and as a result all former attendance records for this day were broken. In addition to the city folk who attended early morning trains brought thousands to see the great exposition. The day was ideal. There was just enough spitzel-in-kum in the air to fill a man with an elixir of life pure as the spring water that trickles in the hills of Old Virginia. Street cars late in the afternoon could not handle the throngs. Thousands were seen walking from the grounds and it was late tonight before the sightseers had departed for their homes. It was a holiday in business circles, a rest day in the schools and adjournment with the courts. Practically the entire population closed its cares for a day to pay respects to the greatest state exposition that exists.

### Runnels Has Auto Club.

Ballinger, Tex., Oct. 21.—The Runnels County Automobile and Good Roads club was organized here last week at a meeting of a number of good roads enthusiasts and automobile owners. The purpose of the club is to employ an expert road builder and an engineer and to advocate an election for the issuance of \$225,000 worth of road bonds.

## Every Day Someone

Finds out that the drug, caffeine, in coffee is the cause of headache, nervousness, irritable heart, insomnia or some other obscure ache or pain.

Steady nerves and a clear brain—the best asset any man or woman can have—are often impossible to the regular coffee drinker.

If you are ambitious enough to "get ahead," suppose you stop coffee and try hot, well-made

## POSTUM

EASY CHANGE When Coffee Is Doing Harm.

A lady writes from the land of cotton of the results of a four years' use of the food beverage, Postum:

"Ever since I can remember we had used coffee three times a day. It had a more or less injurious effect upon us all, and I suffered almost death from indigestion and nervousness."

"I know it was coffee, because when I would leave it off for a few days I would feel better. But it was hard to give coffee up, even though I realized how harmful it was to me. At last I found a perfectly easy way to make the change. Four years ago I abandoned the coffee habit and began to drink Postum and I also influenced the rest of the family to do the same."

"Even the children are allowed to drink it as freely as they do water. And it has done us all great good. I no longer suffer from indigestion, and my nerves are in admirable tone since I began to use Postum. We never use coffee any more."

"We appreciate Postum as a delightful and healthy beverage, which not only invigorates but supplies the best of nourishment as well." Name given by Postum Co., Battle Creek, Mich.

Write for the famous little book, "The Road to Wellville."

If the old aches and pains begin to leave after a few days on Postum, you'll know whether to stick to it or go back to coffee troubles.

Postum now comes in two forms:

Regular Postum—must be boiled.

Instant Postum is a soluble powder. A spoonful dissolves in a cup of hot water, and with sugar and cream makes a delicious beverage instantly.

Drink It instead of coffee—

### WOMAN IS ON STAND

VERA TCHEBERIAK FIGURES  
PROMINENTLY IN BEILISS  
MURDER CASE.

Testimony Shows She Carried Bottle  
of Poison—Says Feared  
Torture.

Kiev, Oct. 21.—Vera Tchiberiak continues to be the most prominent figure in the trial of Mendel Beiliss for the murder of Andrew Yushinsky, the Christian boy who was found killed in a cave in March, 1910. The woman sits with a sphinx-like expression on the witness stand and is never at a loss for an answer when confronted with those giving testimony which implicates her.

When Arnold Magolin, one of the prisoner's lawyers, was called today, Vera looked him up and down and declared she could not identify him.

Magolin testified that when she was asked how she explained the systematic character of the numerous wounds on young Yushinsky's body, answered that Fridhiko had studied medicine.

The lawyer asserted that Bruskovsky, the journalist who investigated the murder, had told him he had discovered at the time he interviewed Vera Tchiberiak that she was carrying a bottle of poison. When the journalist asked her why she had it, she replied:

"I got it not knowing whether you would torture me."

Vera promptly denied this statement in court.

Magolin discredited the story of the alleged offer of a reward, but Vera asserted that she had been promised \$20,000, a foreign passport and other things if she would take the guilt of the murder on her shoulders.

Magolin told the court he considered Bruskovsky's information useful inasmuch as it had been brought about by the lifting of a corner of the veil and revealed something of Vera Tchiberiak's alleged activities which hitherto the attorney declared she had so well concealed.

### Hair Grew 4 Inches In A Few Weeks

A St. Louis Lady Increased the Length of Her Hair Four or Five Inches in a Few Weeks With This Simple Home Recipe.

A well-known St. Louis lady, after using a simple recipe on her hair which she mixed at home, made the following statement: "Without exaggeration, my hair has grown four or five inches." The recipe she used is as follows, and any lady or gentleman can mix it at home. To a half pint of water add 1 oz. of bay rum, a small box of Barbo Compound and 1-4 oz. of glycerine. Apply to the scalp two or three times a week with the tips of the fingers. It not only promotes the growth of the hair, but removes dandruff, scalp humors and prevents the hair from falling out. It darkens streaked, faded, gray hair and makes it soft and glossy. These ingredients can be obtained from any drug store at very little cost and mixed at home.

### BRITAIN ACCEPTS INVITATION

Will Send Representatives to Gathering of International Fleet at Hampton Roads.

London, Oct. 21.—Great Britain today accepted the invitation to send representative of the British navy to the gathering of the international fleet in Hampton Roads, in 1915. The fleet will celebrate the completion of the Panama canal by a voyage to the Pacific.

At the navy league banquet tonight American Ambassador Walter H. Page formally announced the acceptance of the British government to the invitation. The banquet guests included the Japanese ambassador, who, with Mr. Page, was an honor guest; the Earl of Helboms, Earl Brassey, Baron Ameyhill and several foreign naval attaches.

The Earl of Shelborne, in toasting the memory of Nelson, whose victory in the battle of Trafalgar the banquet celebrated, urged the necessity of Great Britain maintaining two keels, one standard, and expressed his disbelief in the possibility of any naval holiday.

Ambassador Page quoted Nelson's message after the battle of the Nile to the effect that he had the pleasure of commanding a band of brothers.

"In this spirit," said the ambassador, "the United States decided the fleets would gather at Hampton Roads for the most mighty and impressive naval demonstration in the history of the world. Thence it will proceed through the canal to San Francisco."

The ambassador said he had permission to announce tonight that his majesty's government had accepted the invitation.

"England's participation," he added, "will be a hearty feature of the celebration of the century of peace and the American admiral leading this fleet can say with Nelson that he had the happiness to command a band of brothers."

### Oregon Will Lead Fleet.

Washington, Oct. 21.—Secretary Messers formally announced today that the historic battleship Oregon, which made the famous trip around Cape Horn in the early days of the Spanish war, will lead the great international fleet through the Panama canal, when the waters are opened in 1915.

While plans for the event have not yet been formulated, Secretary Daniels will be aboard and in all probability President Wilson. Also it has been suggested that all surviving officers who served on the Oregon during 1898 cruise be again at their post of duty when the battleship heads the procession to the canal. In this event the Oregon will be commanded by Rear Admiral Chas. E. Clark, retired, now living in Washington.

The acceptance by the British foreign office of the invitation of the United States to send a squadron of warships to go through the canal with the international fleet, was conveyed today to Secretary Bryan through Ambassador Page. Great Britain is the first of the nations to accept the invitation to participate in a mobilization which will bring together at Hampton Roads the greatest fleet ever assembled in American waters.

A noiseless gun for killing horses or other animals has been invented in England.

CIRCLE A GINGER ALE

### Register for North Platte Farms.

North Platte, Mo., Oct. 21.—More than 22,000 persons had registered at the local booths for farms on the North Platte forest reserve and Nebraska military reservation at 6 o'clock tonight. During this week the booths will remain open day and night. Every train is bringing in hundreds who seek to register and automobiles have come as far as 500 miles in some instances.

### Highball Passengers saved.

Pensacola, Fla., Oct. 21.—Five occupants of the launch Highball, who it is feared was lost in the storm in Escambia Bay Sunday, were safely landed at Milton, Fla., tonight by the steamer City of Tampa, according to telephone advices from Milton. The five men were picked up on the eastern shore of the bay, where the launch was driven by the storm. They had been stranded there more than 26 hours and had suffered greatly from cold and exposure.

### TALKS OF AID TO IMMIGRANTS

Bishop Muldoon Says Church Is Summoned to Care for Bodily as Well as Spiritual Needs.

Boston, Oct. 21.—Aids to immigrants were considered this afternoon by the Catholic Mission congress at a session over which Archbishop James Blenk of New Orleans presided. Bishop Peter J. Muldoon of Rockford, Ill., made the principal address, speaking on "Immigration to and Immigrants in the United States." He referred to the great tide of humanity pouring into America from foreign lands and said:

"The Catholic church, limited in means and ministers, is summoned to care for not only the souls of at least 50 per cent of this mighty throng, but

also to supply at times aid for their material wants."

In order properly to do the work desired, Bishop Muldoon recommended the establishment of a Catholic bureau for obtaining information in regard to Catholic immigration. He said:

"Without interfering in any way with any diocese or national church organization, such a bureau could distribute literature through connections with the Catholic societies in the old lands explaining the dangers to be avoided by the immigrant on his arrival. Through this bureau also the clergy of some of the European races could be better advised in regard to the necessity of a more careful religious instruction to their people."

Tonight there was a meeting of bishops and the league of the Catholic women extended a reception to the women visitors to the congress.

**BOTH PHONES.****BRITISH VIEW SAME****GOVERNMENT'S POLICY TOWARD MEXICO REMAINS UN-CHANGED.**

Bind to No Policy Until After Elections—Sir Edward Grey Explains.

London, Oct. 21.—In his discussion of Mexican affairs with American Ambassador Walter H. Page yesterday, Sir Edward Grey declined to bind the British government to any particular policy after the elections in Mexico. In this respect, therefore, the policy of the British government differs from that of the United States.

The British attitude, according to Sir Edward Grey, is that matters should be left alone until after the election and that future action should be based on their results.

The conversation between the two statesmen otherwise brought out the fact that the views of the British and United States government largely coincided and that both were desirous of permanent peace in Mexico.

Ambassador Page explained to the foreign secretary at some length the policy of the United States and Sir Edward Grey pointed out that nothing had occurred to change the British view that recognition of the provisional government in Mexico was the correct policy.

He pointed out that the British government naturally desired to support President Wilson in any action he might take looking to peace at the same time giving consideration to the immense British interests in Mexico.

The action of Sir Lionel Carden, British minister to Mexico, was not brought into question by the American ambassador, but Sir Edward Grey explained that he was simply carrying out the British policy of non-interference pending the elections.

**AUSTRIA CURBS EMIGRATION**

Government Introduces Bill to Prohibit Avoiding Military Service in Country.

Vienna, Oct. 21.—Because of recent developments in the emigration traffic from Austria to the United States and Canada, the government introduced today into parliament a bill prohibiting "any emigration likely to have an adverse effect on military recruiting in Austria."

Several interpellations on the subject of the operations of Canadian Pacific railway agents in Austria demanding names of the Austrian officials alleged to have been involved in the transactions were laid on the table of the house.

The subcommittee appointed by the budget committee of the lower parliament to report on the American shipping service was occupied today with the Canadian Pacific railway's connection with emigration from Austria. The minister of commerce, explaining the reasons which induced the government to accept the Canadian Pacific tender for a line from Trieste to Canada, said it was partly for the purpose of controlling emigration in the interest of the defensive forces. It was requested that the government should take steps to prevent the company, obvious contraventions had occurred.

The minister of the interior also stated that the government had no intention of stopping its inquiry. In Austria and Bukovina alone this year 50,000 had evaded military service.

He emphasized, however, that this action related equally to all companies and agencies engaged in the emigration business.

**FRISCO TO SPEND \$10,000,000**

Receivers Want to Pay Car Trust Claims—Permit Delayed by N. O. T. & M. Objections.

St. Paul, Oct. 21.—Authorization of an issue of \$10,000,000 in receivers' certificates was asked of Federal Judge Sanborn here today by T. H. West, W. C. Nixon and W. C. Bille, receivers of the St. Louis and San Francisco railroad, the petitioners setting forth that they desired thus to pay the preferred and car trust claims. Objections to the signing of the order were raised by Frank B. Kellogg, who represents \$12,000,000 holdings of the New Orleans, Texas and Mexico railroad, a subsidiary, and Judge Sanborn granted a delay until Monday for the filing of official objection.

It was said at the hearing the receivers' certificates would not affect materially the holders of the \$25,000,000 of bonds of the Texas Southern and that the money would be used to pay all first lien and preferred claims against the Frisco. In case the New York bondholders make no formal objection before Monday, the hearing will not be held and the order will be signed by the court.

At the same time it is expected that an order for the payment of \$75,000,000 interest on the general holdings of the railroad will be signed. Receivers' statements today were that the road's income was now ample to pay all running expenses. Purchases of supplies will be carried on without order of the court.

**Elika Estate Settled.**

Elkins, W. Va., Oct. 21.—Judge Kittling in the Randolph county court, today decided the estate of the late United States Senator Stephen B. Elkins owed the state of West Virginia \$12,000 as one-tenth of \$120,000, the amount the judge decided the executor omitted from the assessment list. The prosecuting attorneys acting for the state claimed \$3,750,434.04 had been omitted.

**Dr. Philip Usher Dead.**

Baltimore, Oct. 21.—Dr. Philip Usher, for many years provost of the Peabody Institute of this city and widely known in scientific circles throughout the country, died at his home here today. He was 75 years old and had been an invalid for the last few years.

Dr. Usher was the author of many contributions to scientific journals in the United States and England. His collection of locusts and other members of the cicada family, which was presented to the national government several years ago, is considered the best ever made.

A receiving attachment has been issued for mesneholders to make them of service in collecting as well as distributing funds.

**ROOSEVELT IS AT RIO****GUEST OF BRAZIL, AND RECEIVES MILITARY HONORS—VISITS HISTORICAL SOCIETY.**

Program for Entertainment is Elaborate—To Address Y. M. C. A. and Historical Society.

Rio Janeiro, Oct. 21.—Theodore Roosevelt was received with military honors as he stepped ashore from his steamer here today.

Edwin V. Morgan, United States ambassador to Brazil, with the staff of the embassy, went on board before the vessel docked with a reception committee headed by Senor Moreira, representing the ministry of foreign affairs, Lieutenant Colonel Achilles De Fedeiras, Brazilian attaché at Washington, Don Jose Carlos Rodriguez, and Antonio Coutinho Gomez, and Antonio Clemente de Magalhães of the historical institute.

The party disembarked on the naval arsenal quay here, a company of soldiers saluted, while bands played the Brazilian and American national anthems.

Colonel Roosevelt paid his respects to the president of Brazil in a lengthy visit. The meeting was most cordial. He then called on Dr. Lauro Muller, minister of foreign affairs, and together they inspected the port works and the avenues for which Brazil is noted.

The official program for the entertainment of the nation's guest is likely to keep Colonel Roosevelt busy during his stay here. Tomorrow he will be the president's guest at a breakfast. Later he will visit the military college and speak before the Young Men's Christian Association. In the evening he will attend a performance at the municipal theatre.

On Thursday Colonel Roosevelt will visit the Oswaldo Cruz institute of pathology and bacteriology and will be the guest of honor at a reception given by the American ambassador and the North American colony.

On Friday the party will drive to Tijuca on the outskirts of the city. This drive has been arranged by a committee of the senate and the chamber, and a breakfast will be given under the same auspices. Dr. Lauro Muller's garden party will be held the same afternoon at the botanical garden, and in the evening Colonel Roosevelt will deliver an address before the historical society. Saturday will be given over to sight seeing around the bay.

**DISCUSS SHOP APPRENTICES**

Typothetae in Session at New Orleans Change Rules—Arrange for \$5000 Fund.

New Orleans, Oct. 21.—The subject of apprentices in printing shops was the principal matter of business of the United Typothetae of America in convention here today. The report of the commission on apprentices, Henry P. Porter of Boston, chairman, was read and adopted. It provided for a permanent committee with an annual salary of \$5,000, the appointment of a national apprentice director, the reorganization of the "U. T. A." technical school at Indianapolis; the establishment of co-operative and individual shop schools; a uniform scale of wages. It also provides for co-operation with trades unions wherever possible.

It was announced that a vote would be taken Thursday on the proposed amalgamation of the typothetae and the Ben Franklin clubs.

**Find Revolutionary Movement At Lisbon**

Lisbon, Oct. 21.—That the arrest last night and today of 100 persons, many of whom held high social positions and included police, naval and military officers, disorganized a cleverly conceived revolutionary movement directed by two committees, one military and the other civil, is asserted by Lisbon newspapers today. Assassination of the ministers and other officials of the first plan and this accomplished, three columns, organized at different points, were to march into the city. Uprisings were planned to occur simultaneously at Oporto, Braga, Evora and Viana, according to the papers.

**Killed Playing Football.**

Vermillion, S. D., Oct. 21.—Marcellus Dunlap, aged 13, was killed while playing with a football during school recess today in a rush for the ball Dunlap is said to have fallen under several others.

**Advertising Pays.**

(Kansas City Star.)  
A Kansas man lost a five-dollar bill and advertised for it. In a day or two a man appeared in his office, saying that he had seen the advertisement, and handed him the bill. In a few days the Kansas man was going through his "other" clothes and found the original bill which he thought he had lost. Notwithstanding the fact that the events in this story may sound suspicious, the lesson is obvious.

Recent excavations of an ancient Roman villa near Lieke disclosed fragments of coal, leading to the belief that the fuel was mined in Belgium as far back as the beginning of the Christian era.

As it sometimes is difficult to find a blown-out electric fuse among a bank of fuses, Englishmen have invented a fuse resembling a rifle target, the bull's eye dropping out when it blows out.

A glass tub can be made from a carboy by filling it with water to a certain height, pouring boiling oil on top of the water and dashing cold water on the outside, causing the glass to break evenly.

As far back as 1850 a patent was granted to an Irishman for a combined carpet sweeper and vacuum cleaner very similar to one of the most modern of such machines.

To stop following hostile vessels or even for purposes of attack when the conditions are right a German naval officer has invented a Greek fire that will burn while floating on water.

To a Chicago man has been granted a patent for a device which, when attached to a lock, automatically records when the lock is opened or closed and by whom.

**No Other Like It In the World!**

**YOU'LL never find a cowboy without "the makings." A sack of "Bull" is a part of every soldier's equipment. The familiar round tag hangs from the blouse pockets of all of Uncle Sam's Jack Tars. And in the officers' mess on every battleship and at every military post you'll find an open sack of "Bull" Durham, inviting everyone to roll for himself a fresh, hand-made "Bull" Durham cigarette—the kind that brings lasting enjoyment and satisfaction to more millions of men than all the brands of ready-made cigarettes combined!**

**GENUINE "BULL" DURHAM SMOKING TOBACCO**  
(Enough for forty hand-made cigarettes in each 5-cent sack)

**"Bull" Durham has been the standard smoking tobacco of the world for three generations! It is the same today as it was 53 years ago—just pure, good tobacco with the natural tobacco fragrance—rich, mellow and satisfying.**

**"Bull" Durham hand-made cigarettes have a delightful aroma and fresh fragrance that no other cigarettes possess. Compare their delicious smoothness and coolness with even the highest-priced ready-made cigarettes, and judge for yourself.**

**A sack of "papers" FREE with each 5-cent sack**

**Hearst and Mitchell  
Speak From the  
Same Platform**

New York, Oct. 21.—Wm. R. Hearst and John Purroy Mitchell, fusion candidate for mayor, spoke from the same platform tonight at an independence league mass meeting. Mr. Hearst declared himself out of sympathy with the present course of the democratic party in many particulars.

**Nipper Tells of Experiments in the Earth's Magnetism**

St. Louis, Oct. 21.—Professor N. E. Nipper, of Washington University, in a lecture before the Academy of Sciences here, told of experiments he conducted last summer on the shore of Lake Huron which indicated that variations in the earth's magnetic field are due to wind, rain and cloud shadows interfering with the solar radiation.

Professor Nipper's experiments were characterized by Professor T. J. See, director of the Mare Island observatory, who heard the lecture, as the most notable contribution to science of the earth's magnetism in the last fifty years.

Professor Nipper said the variations which he observed in the magnetic needle indicated the disturbance of the electrically charged molecules of the air and that similar disturbances would account for the aurora borealis.

**DISCUSS COMPLAINTS.**

Meeting of American Locomotive Co. Considers Stockholders' "Kicks."

New York, Oct. 21.—Complaints of stockholders of the American Locomotive company, recently given publicity in pamphlet form by Isaac McCale of Baltimore, a large holder of stock, were discussed, at times animatedly, at the annual meeting of the company here. President W. H. Marshall read a statement dealing with the company's financial condition and replied to criticism of its dividend policies. As to criticisms of mismanagement, he said, a committee was investigating, at the annual meeting of the company's recent abandonment of its automobile business was brought up. A resolution urging appointment of an opposition investigation committee was laid on the table by a large majority of the stock voted. In the election of directors the regular ticket was elected without opposition.

Gilks to Manage Montgomery. Montgomery, Ala., Oct. 21.—Announcement is made tonight that Robert Gilks, the one-time big league player and afterwards a star and manager in the Southern and other minor leagues, has been signed to manage the Montgomery team next season.

**Jess Willard and  
Twelve Others Are  
to Face Trial**

Los Angeles, Oct. 21.—Jess Willard, heavyweight prize fighter and ten of the twelve others concerned in the bout in which John Young was fatally injured at Vernon Arena August 22, must stand trial for alleged violation of the state law prohibiting prize fighting.

**For He Wanted Something to Play With**

and he got it. A bicycle, like a primrose on the bank, was a bicycle to him. Instead of looking up a really good wheel, he took any old thing that happened. No wonder he is disgraced. You couldn't get a bad wheel here if you wanted to. Come and see the makes we handle, and every one of them is guaranteed.

## Real Estate For Sale.

Are you the owner of the place in which you live, or do you just "PAY RENT"? Now, as a matter of fact, you think it would be better to put that same amount paid out each month in rent into a payment on a home and after a short time, have something which would prove a profitable investment. Listen to this:

A modern 6-room home in Waco Vista for only \$4750; \$750 cash and the balance like rent.

We offer an exceptionally good value in a fine home on Vermont Ave., just one block off the line \$2165 feet, beautiful shade trees, large 6-room residence, good barn and servants' house; walks and curbing. Price \$1250.

On Herring Avenue, nice 2-story home for \$5500. This is a real bargain.

Large 6-room home near the new public school for only \$5500.

A good cottage in the 600 block on N. 11th St. Price \$2000; more.

\$1750 buys a finely located lot with a 4-room cottage, right on the car line on N. 10th St. If you are seeking a good investment, see this.

A new 5-room bungalow on the south side for \$3000; small cash payment, balance to suit purchaser.

Near Baylor University, a good 10-room house, lot 50x225 feet; now renting for \$35 per month. Will take \$2500 for place and five best of cars.

Two choice lots in Farwell Heights to be sold at a sacrifice if sold within the next ten days. If interested, in a bargain, see us.

\$750 for two well located lots in Farwell Heights. This is a good investment for home or cash. \$150 cash will handle this.

\$5000 for a 10-room house, with a lot in Glenloch addition, one-third cash, balance one and two years.

\$1000 in South Waco, within one block of car line. Price \$1500.

5 choice lots on Hill 13500. These are as pretty lots as can be found anywhere in this locality and can be secured on very reasonable terms.

\$1250 for two extra well located lots in Glenloch addition. This is an A-1 proposition as an investment.

NATIONAL EXCHANGE INSURANCE AND TRUST CO.
